IT PARK UNIVERSITY

Instructions

How is it going ? Do you have problems with practical tasks ? Any concerns with learning materials ?

gonna a little bit

no good

fine 2

tough material

i will start today

1

7 / 7

IT PARK UNIVERSITY

Today's agenda

- Total Recall
- Servlet
- Quiz
- Questions

Total Recall

What do you remember from the previous workshop ?

scopes

idk

nothing

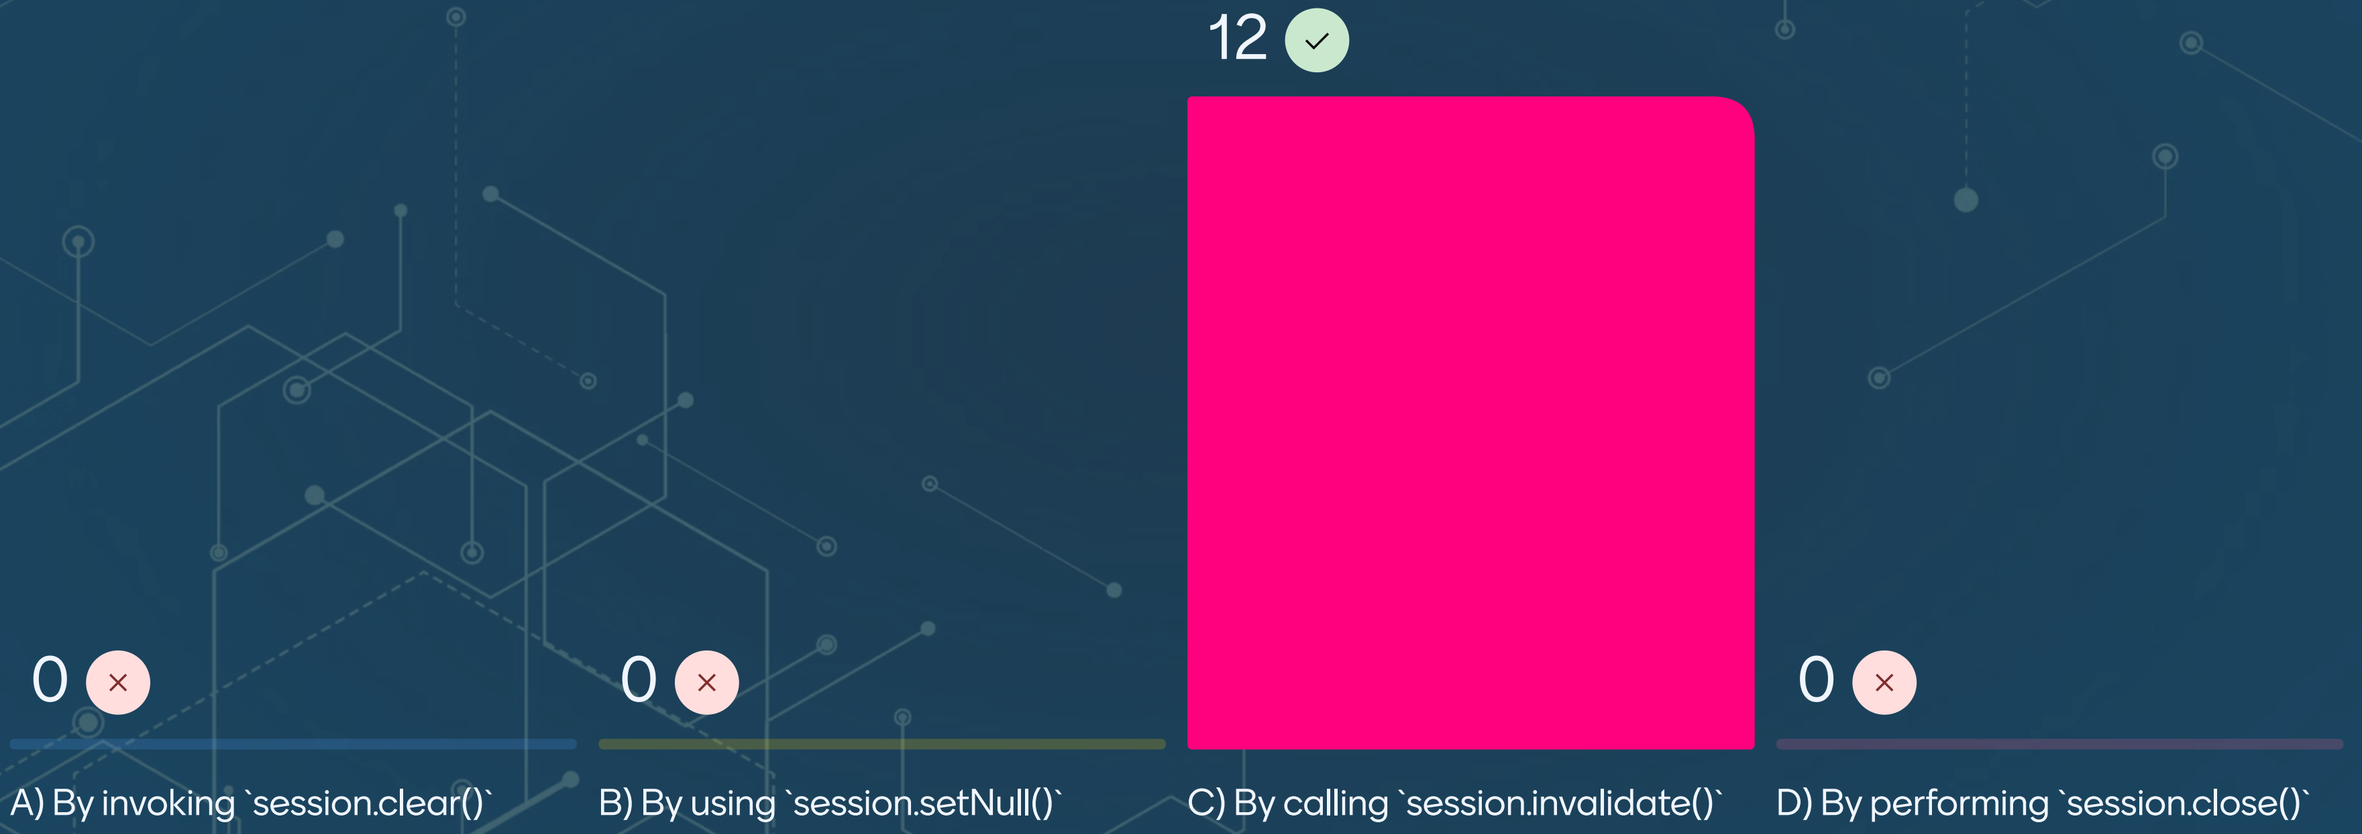

HttpSession and Cookies

cooooookies

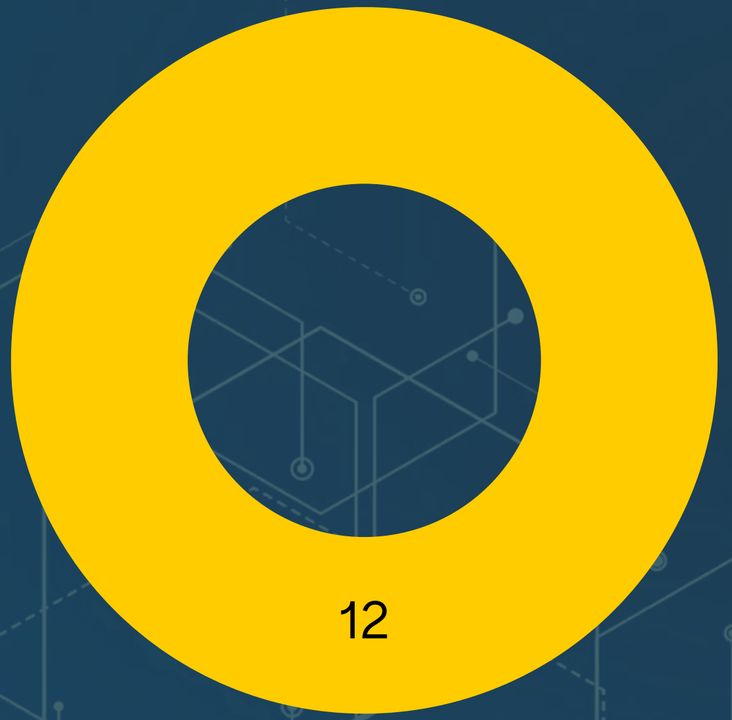

application, session, request

Java

How can you invalidate a user's session in HttpSession?

What is the primary purpose of cookies in Java?

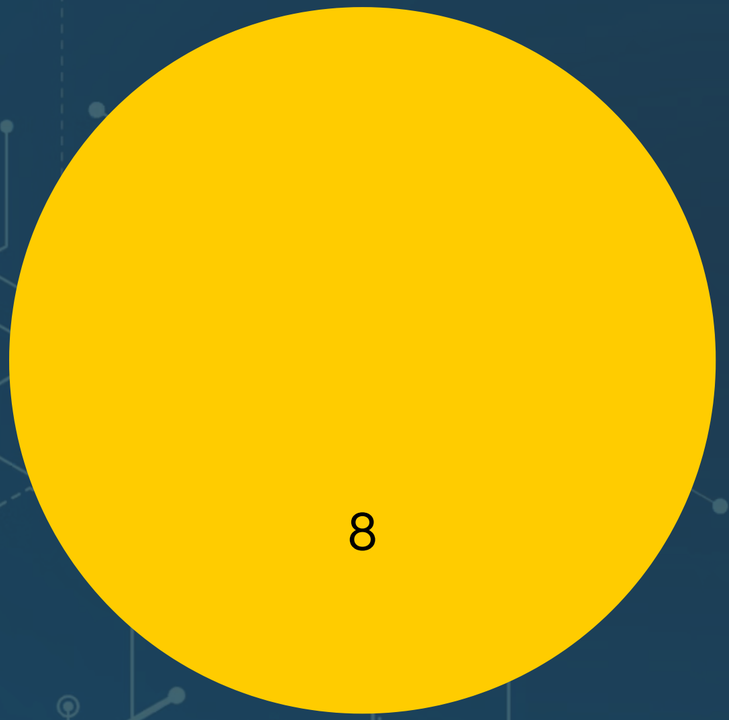

0	A) To store client-side preferences temporarily.	✗
12	B) To enable session tracking and persist data on the client-side.	✓
0	C) To cache server responses for faster performance.	✗
0	D) To handle database connections.	✗

Which method is used to add a cookie in servlet response?

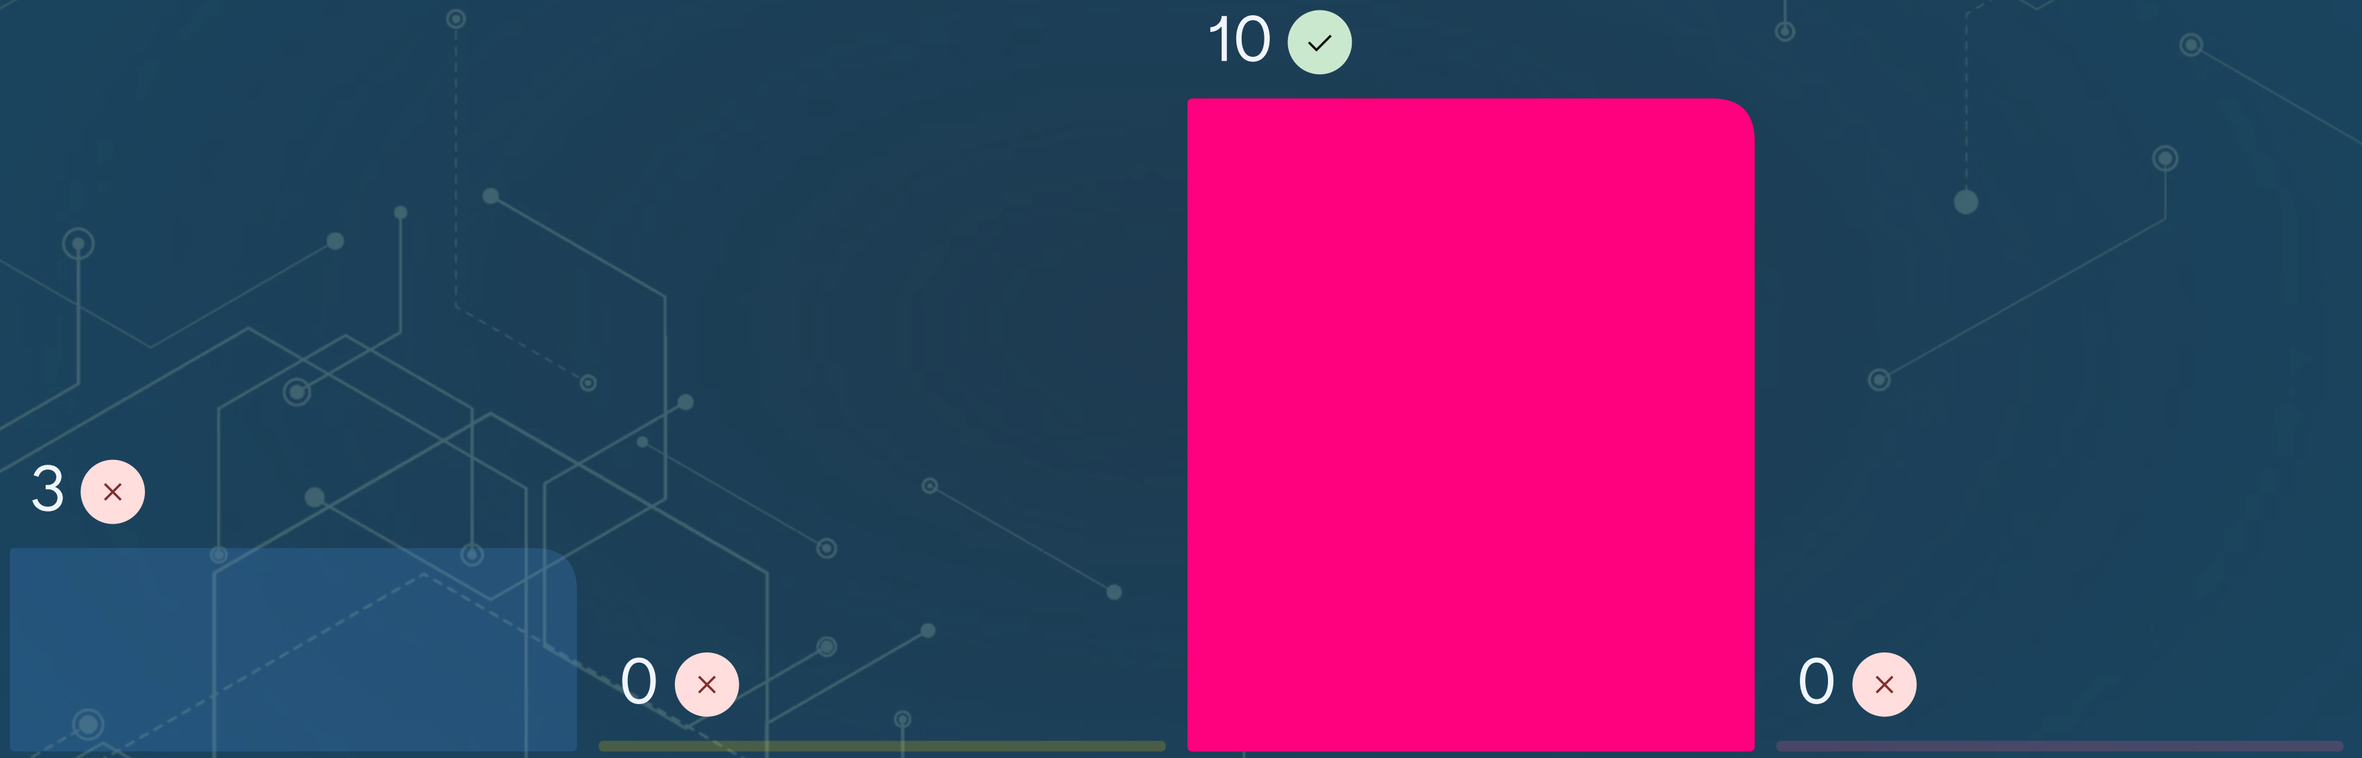

Which type of file does JSP automatically convert into?

0	A) HTML file	×
8	B) Servlet file	✓
0	C) XML file	×
0	D) JavaScript file	×

What is the purpose of the <%= %> scripting tag in JSP?

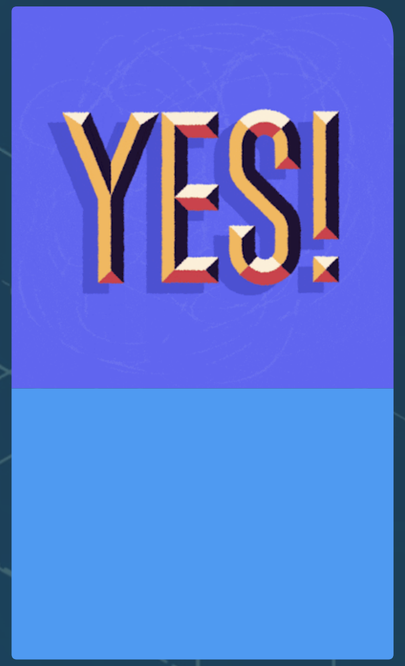

Servlets and JSP (ws-14)

SERVLET

Have you started Preparing for the MID TERM ?

6

yesssssssss

3

?!?!?!?!?!?!?!?!?!?!?!?!

4

nooooooo

ITPU IT PARK UNIVERSITY

Main points:

- servlet filter
- servlet listener
- JSTL

IT PARK UNIVERSITY

Quiz

What is the primary purpose of a servlet filter?

A) To generate dynamic web content.

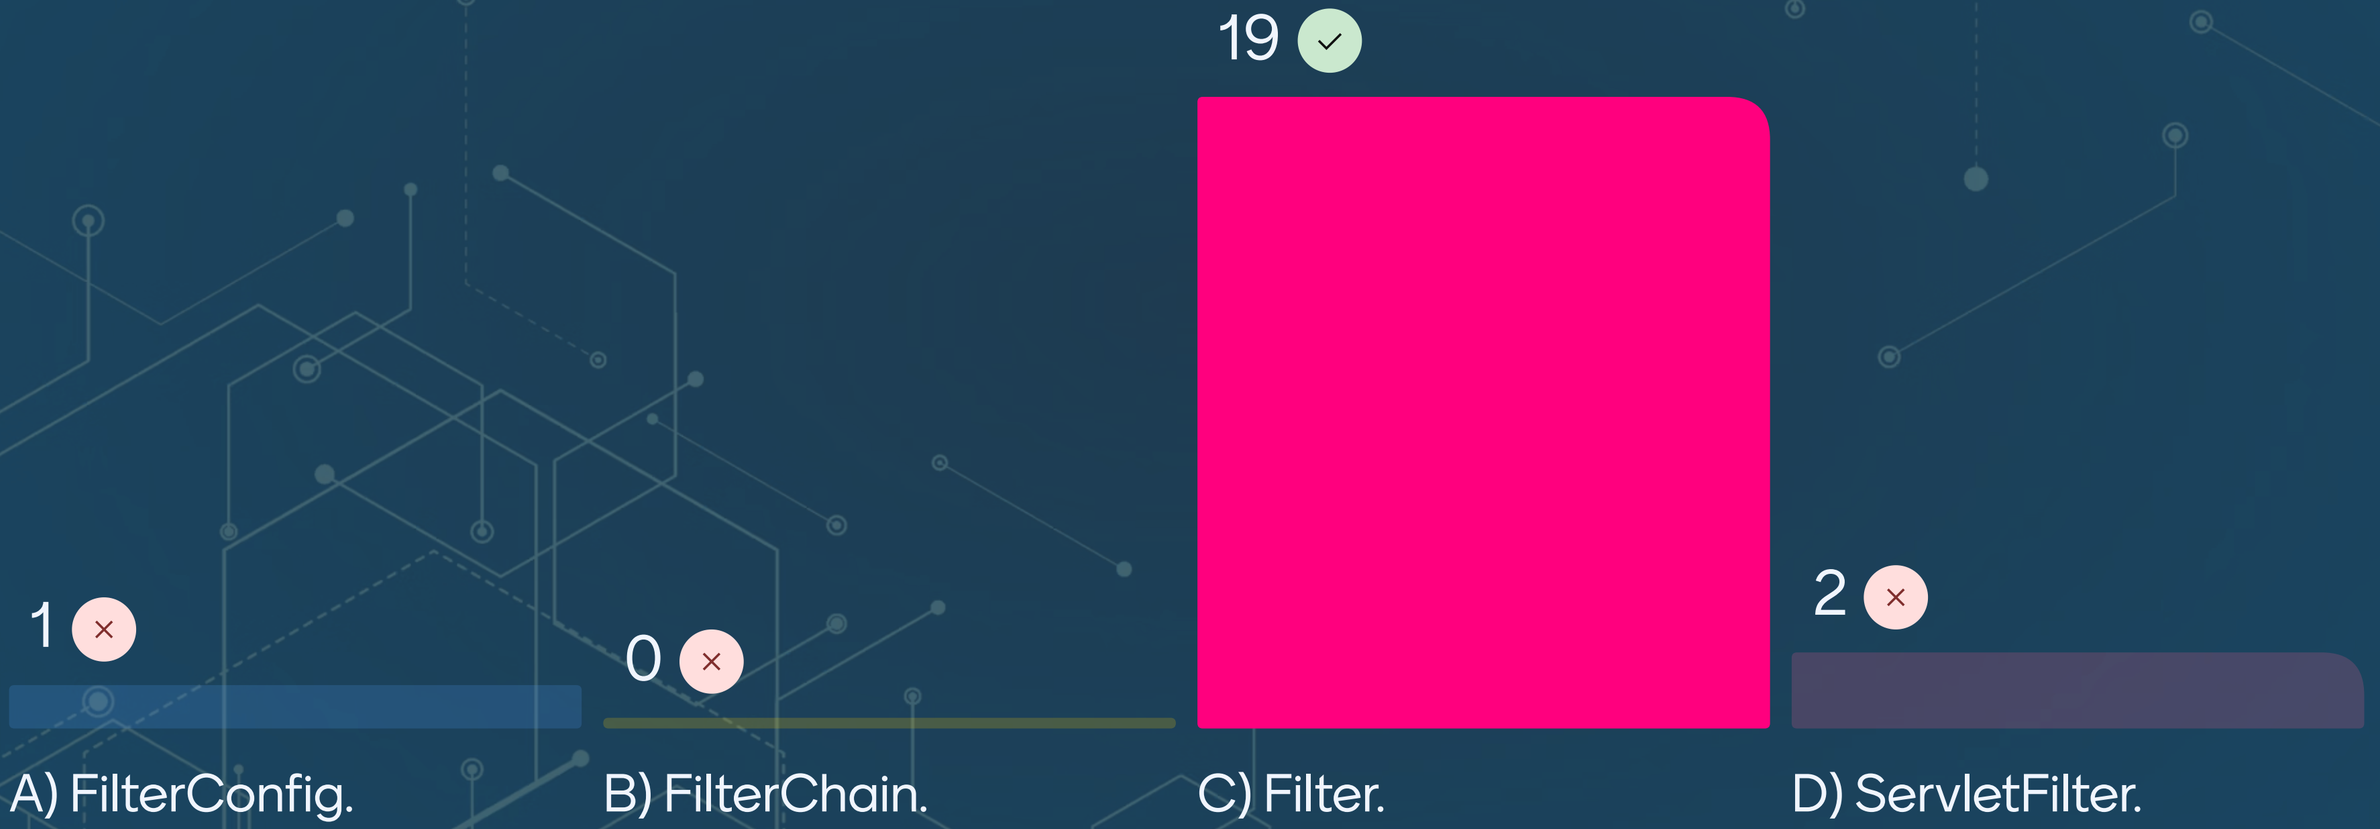

B) To modify request and response objects before reaching servlets.

C) To handle security within the servlet itself.

D) To manage database connections for servlets.

iTPU IT PARK UNIVERSITY

Which interface must be implemented by a filter in Java servlets?

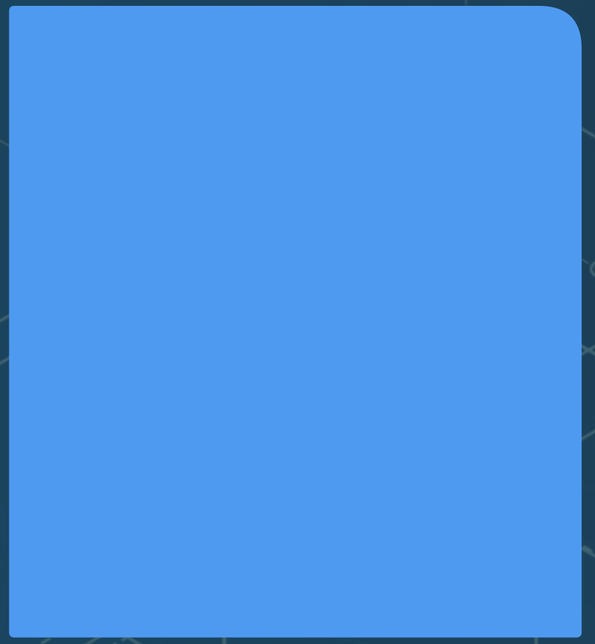

1 2 ?

iTPU IT PARK UNIVERSITY

Which method in the Filter interface is used for initialization?

22 ✓

A) init().

0 ×

B) filterInit().

0 ×

C) setup().

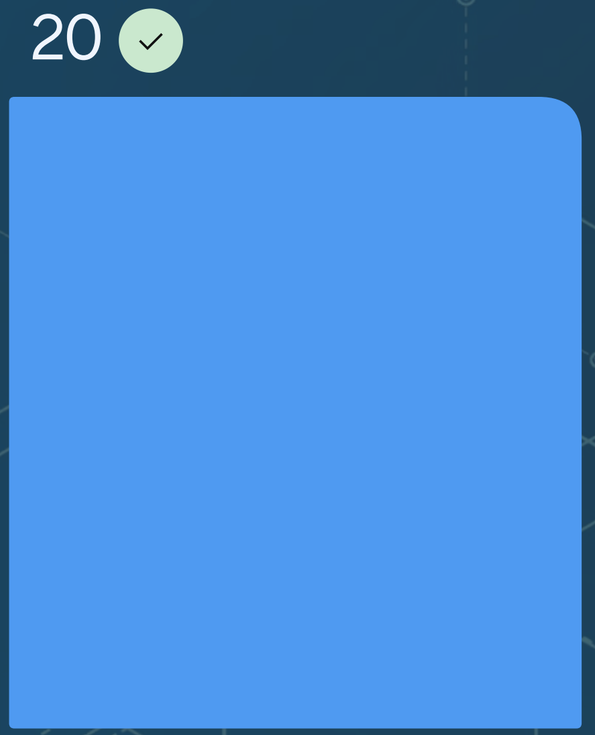

0 ×

D) configure().

1 2 ?

iTPU IT PARK UNIVERSITY

How do you map a filter to a specific servlet or URL pattern?

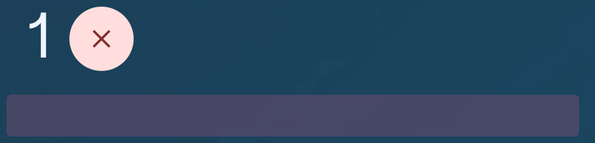

A) By using `<filter-mapping>` in web.xml.

B) By adding an annotation in the servlet code.

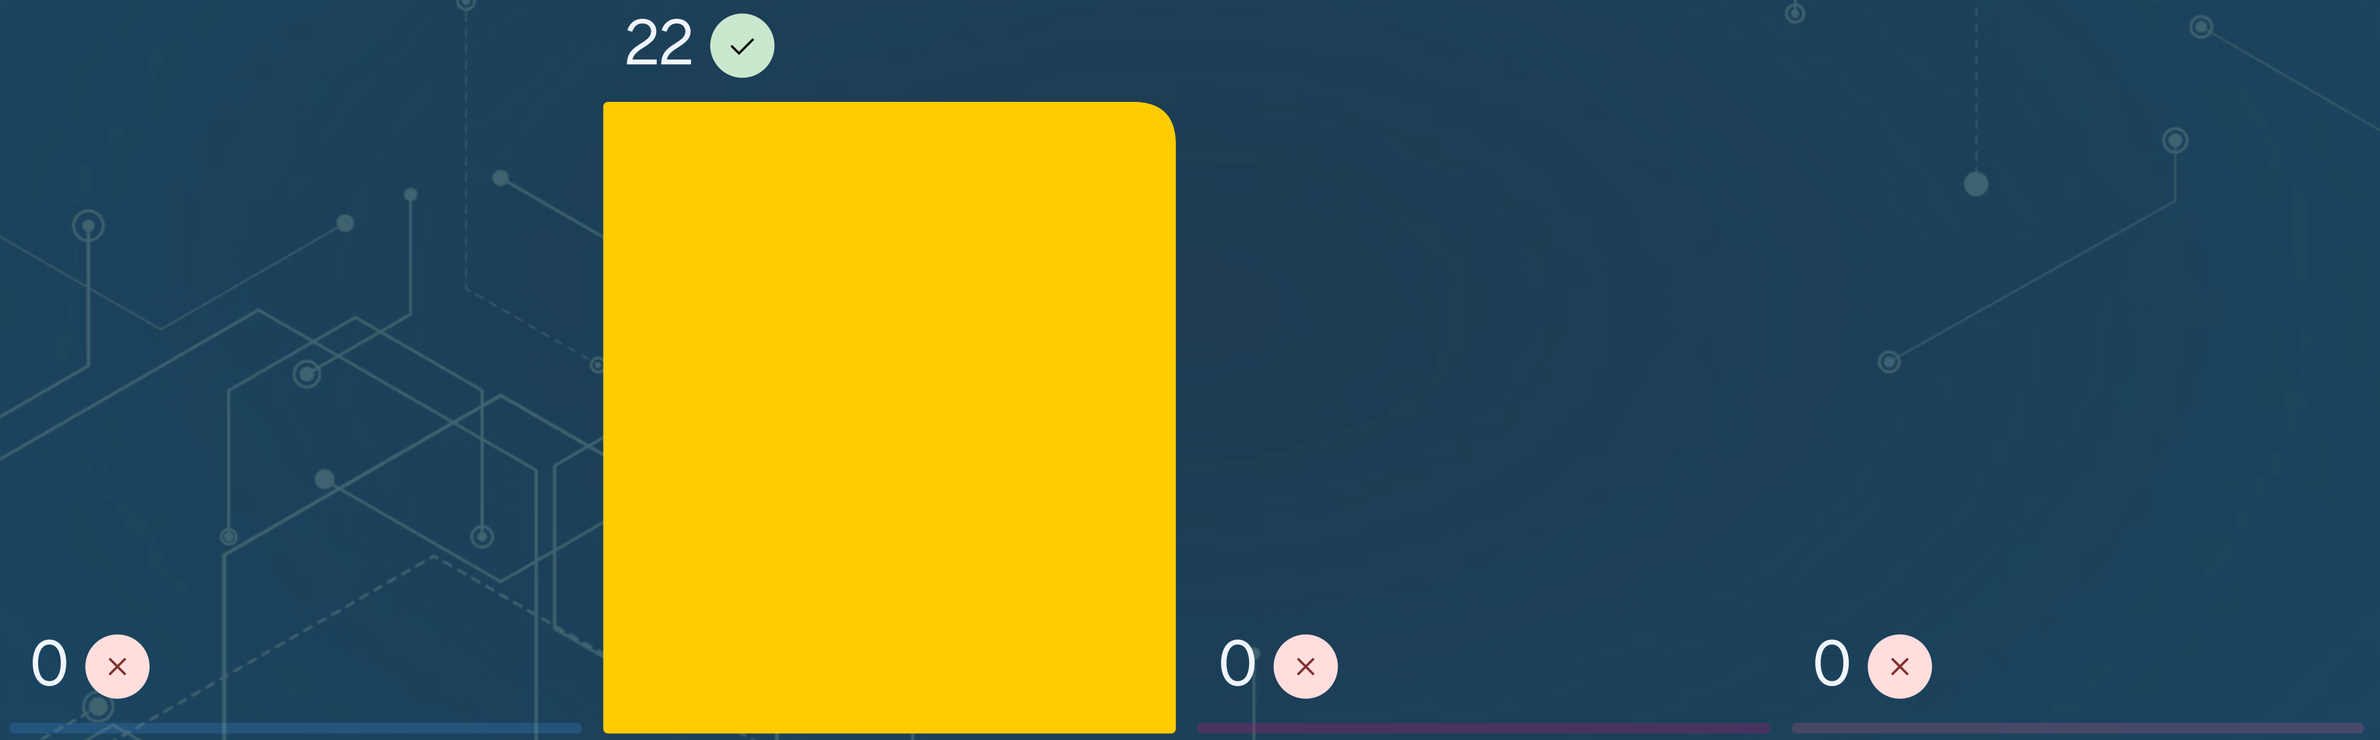

C) By creating a database entry for the filter.

D) By configuring the filter in the session object.

What is the purpose of a servlet listener?

A) To manage servlet lifecycle events.

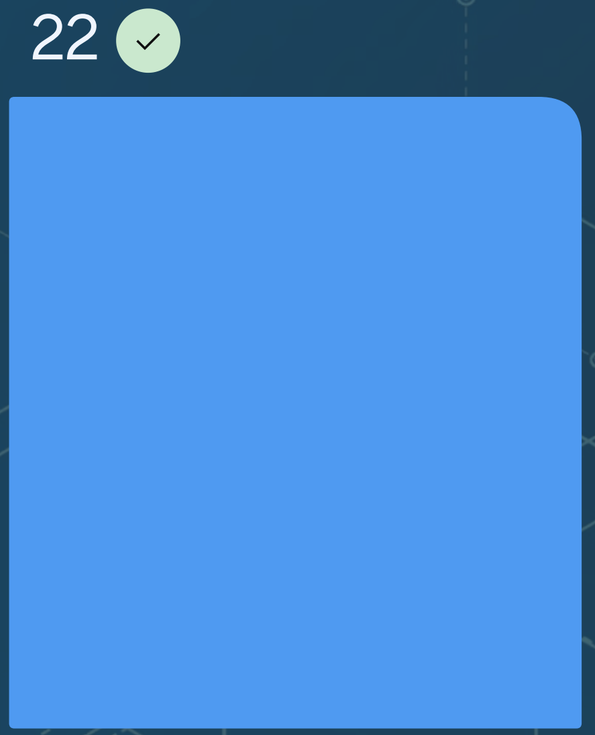

B) To monitor and respond to specific events in the web application.

C) To handle client requests.

D) To generate dynamic HTML content.

ITPU IT PARK UNIVERSITY

Which interface is implemented by listeners that monitor session creation and destruction?

A) HttpSessionListener.

0

B) ServletContextListener.

0

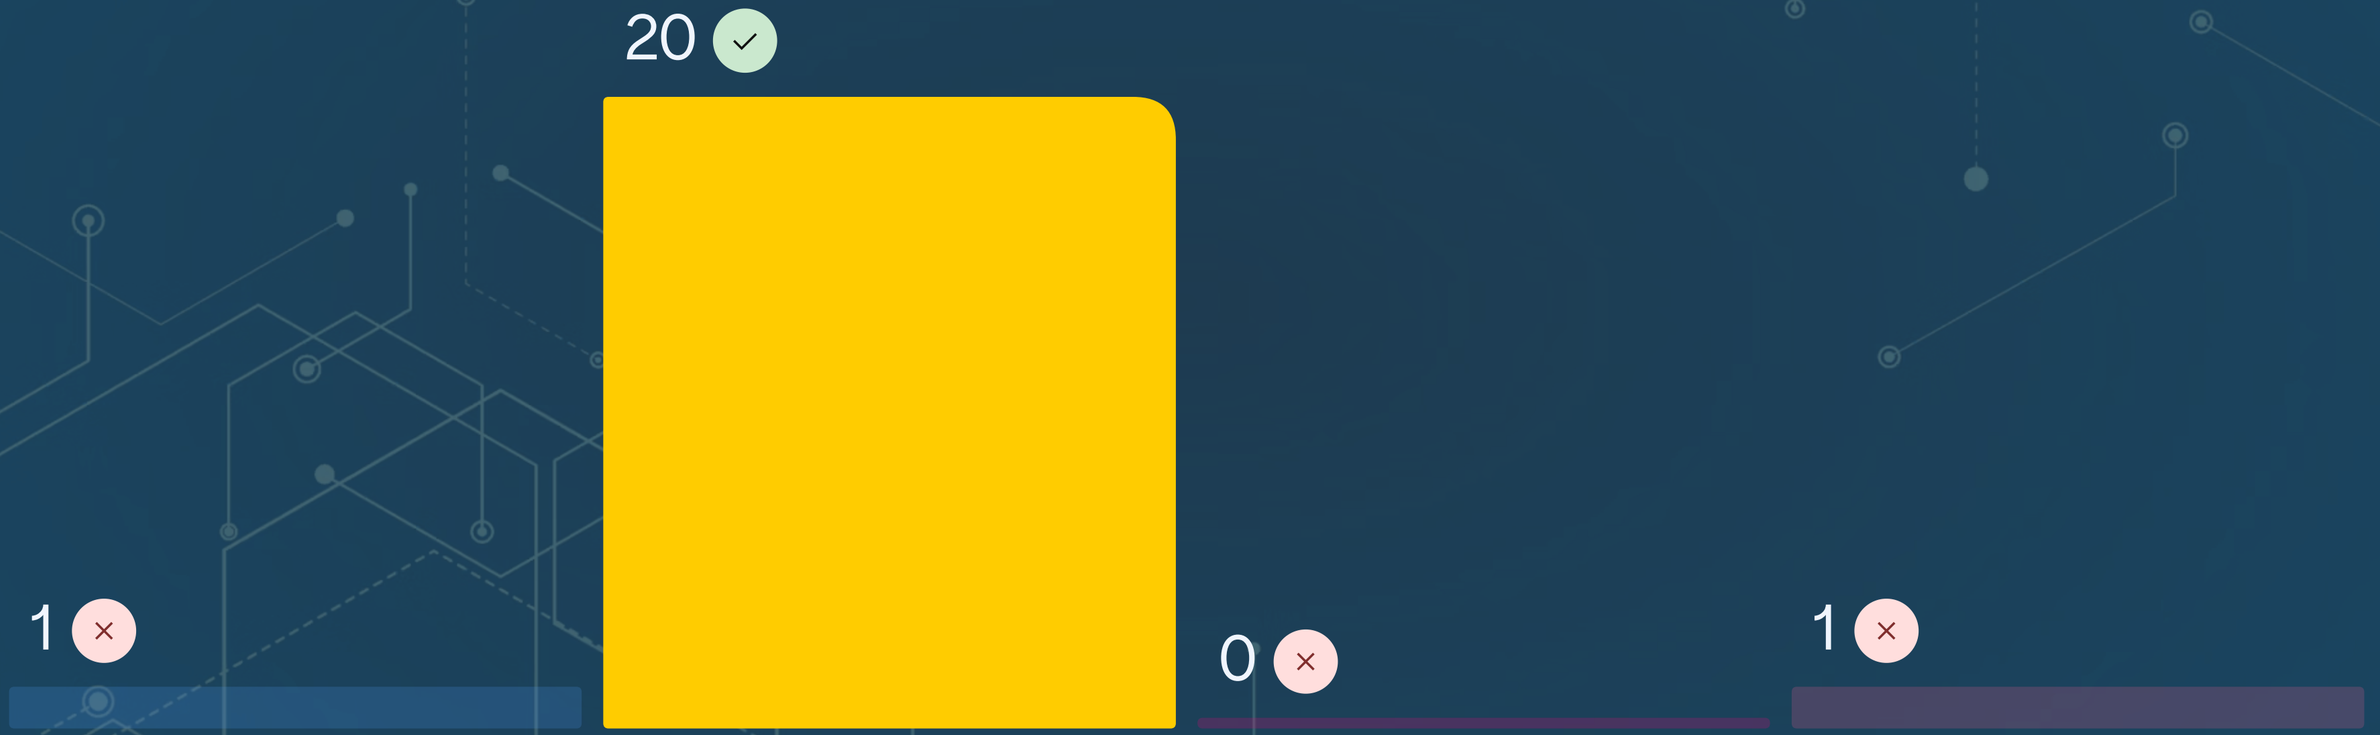

C) ServletRequestListener.

0

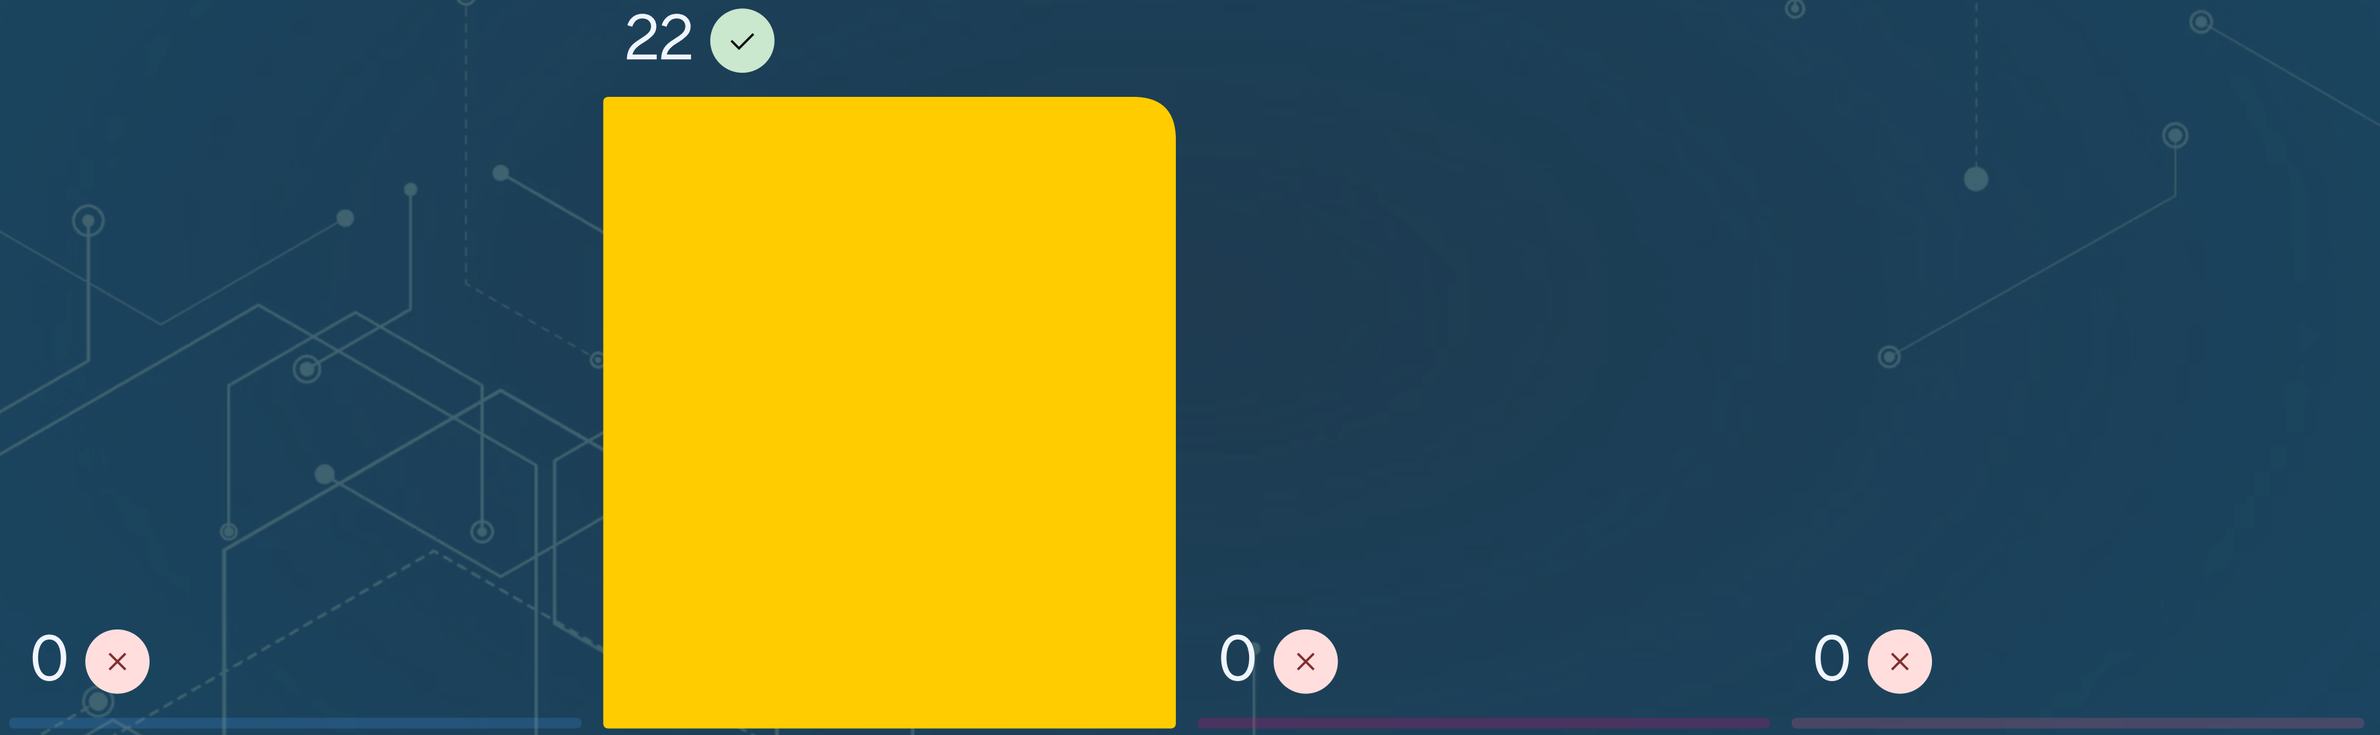

D) SessionEventListener.

iTPU IT PARK UNIVERSITY

Which method in the ServletContextListener is called during server startup?

Where do you configure listeners in a Java web application?

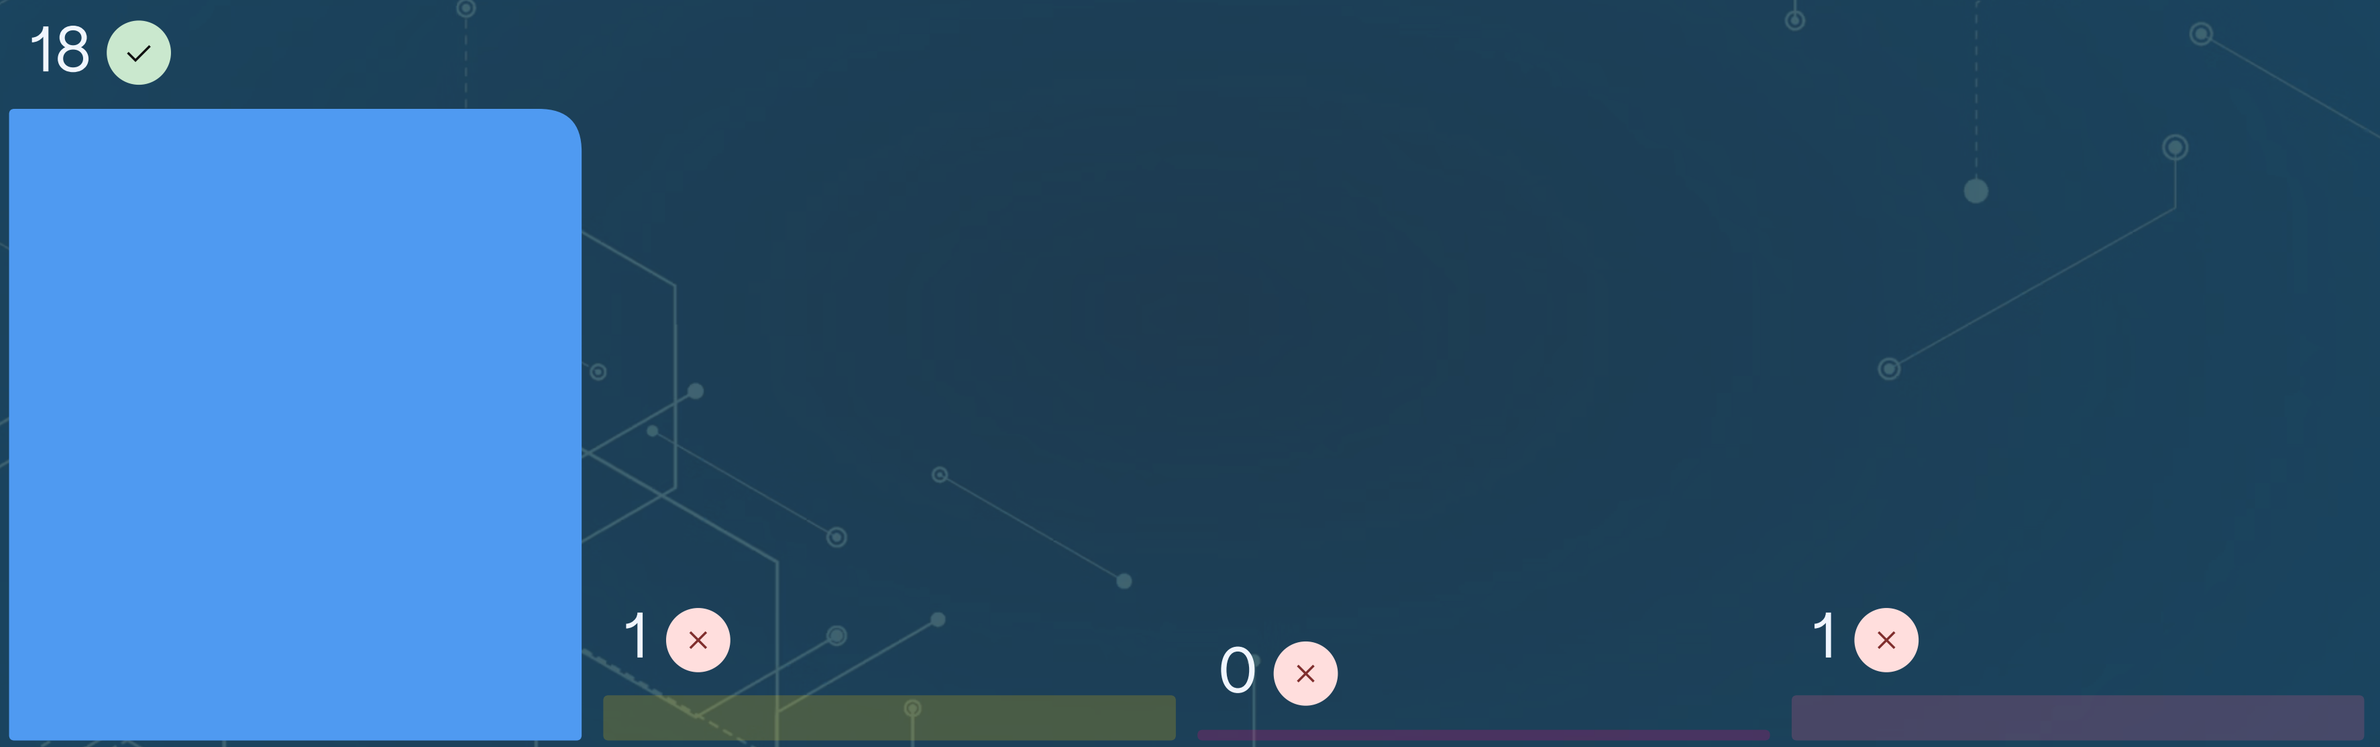

A) In the servlet code.

B) In the web.xml deployment descriptor file.

C) In the HTTP header configuration.

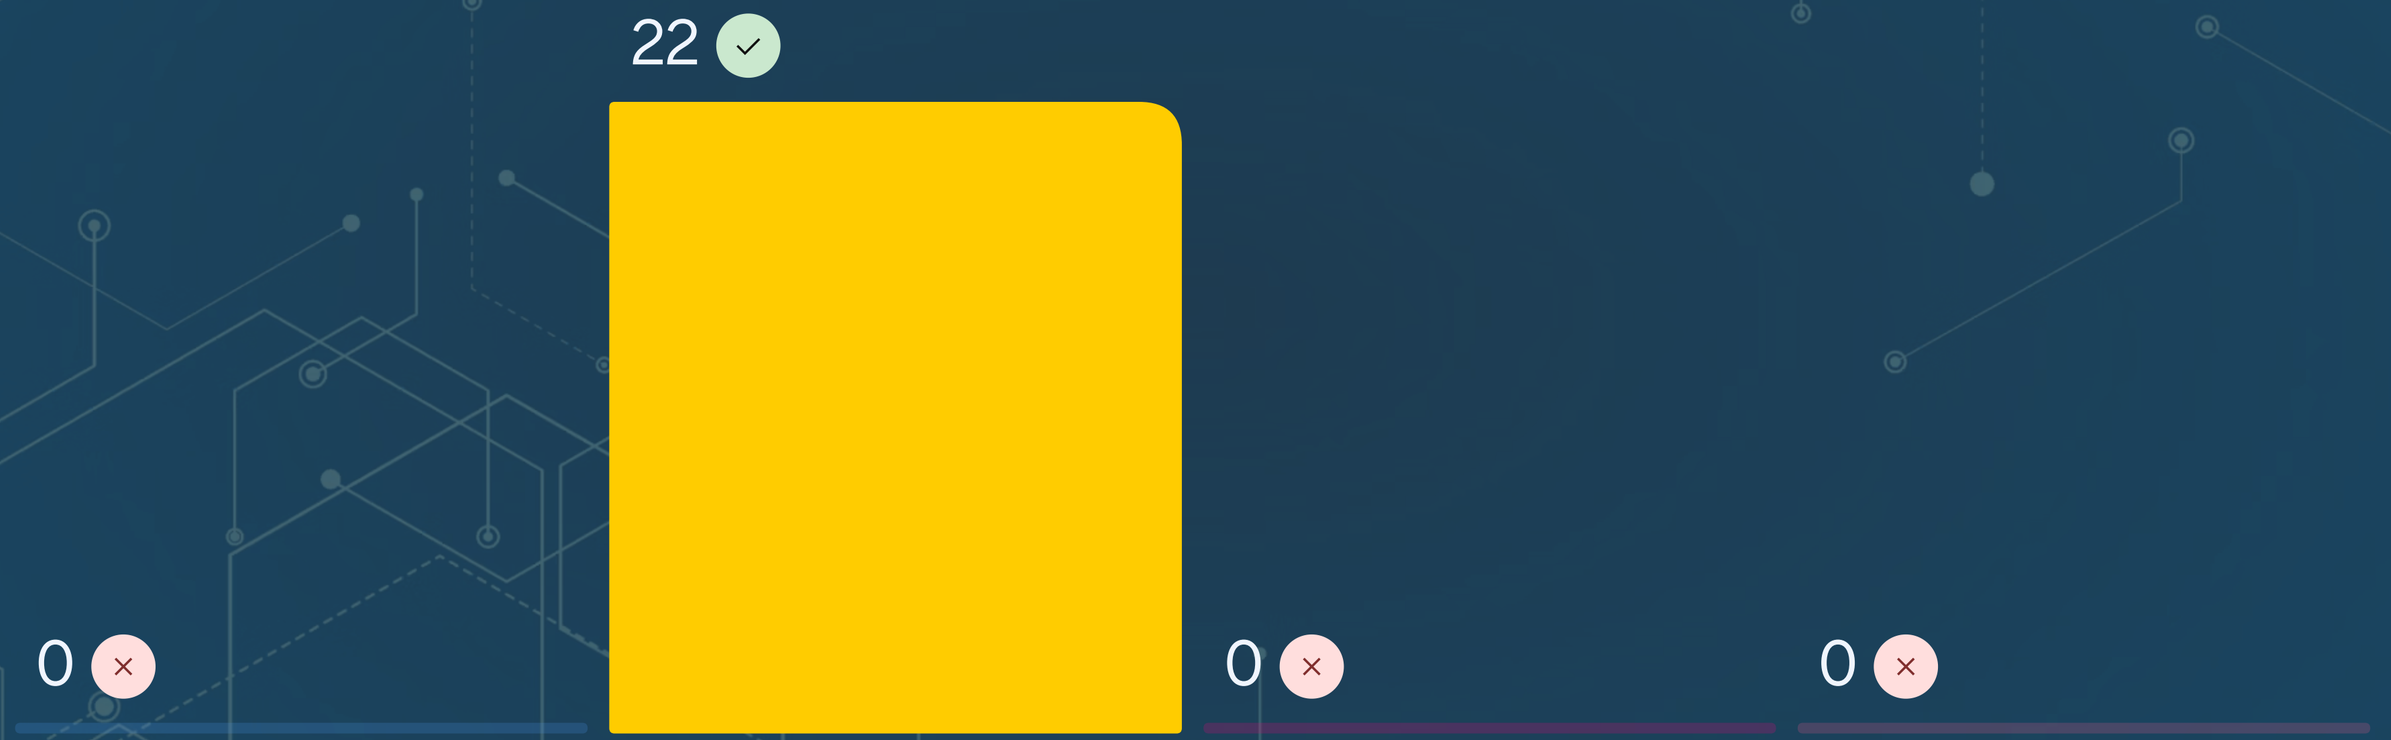

D) In the application's root directory.

What does JSTL stand for in the context of JSP?

3 1

What is the main purpose of JSTL in JSP development?

A) To add server-side scripting functionality.

B) To simplify common web development tasks using predefined tags.

C) To manage client-side scripting.

D) To design the layout of JSP pages.
