How is it going ? Do you have problems with practical tasks ? Any concerns with learning materials ?

not bad good fine

all good so far great

boring learning materials

thank you for advice

Today's agenda

- Total Recall
- Spring Framework
- Quiz
- Questions

0

0

What do you remember from the previous workshop ?

dispatcher

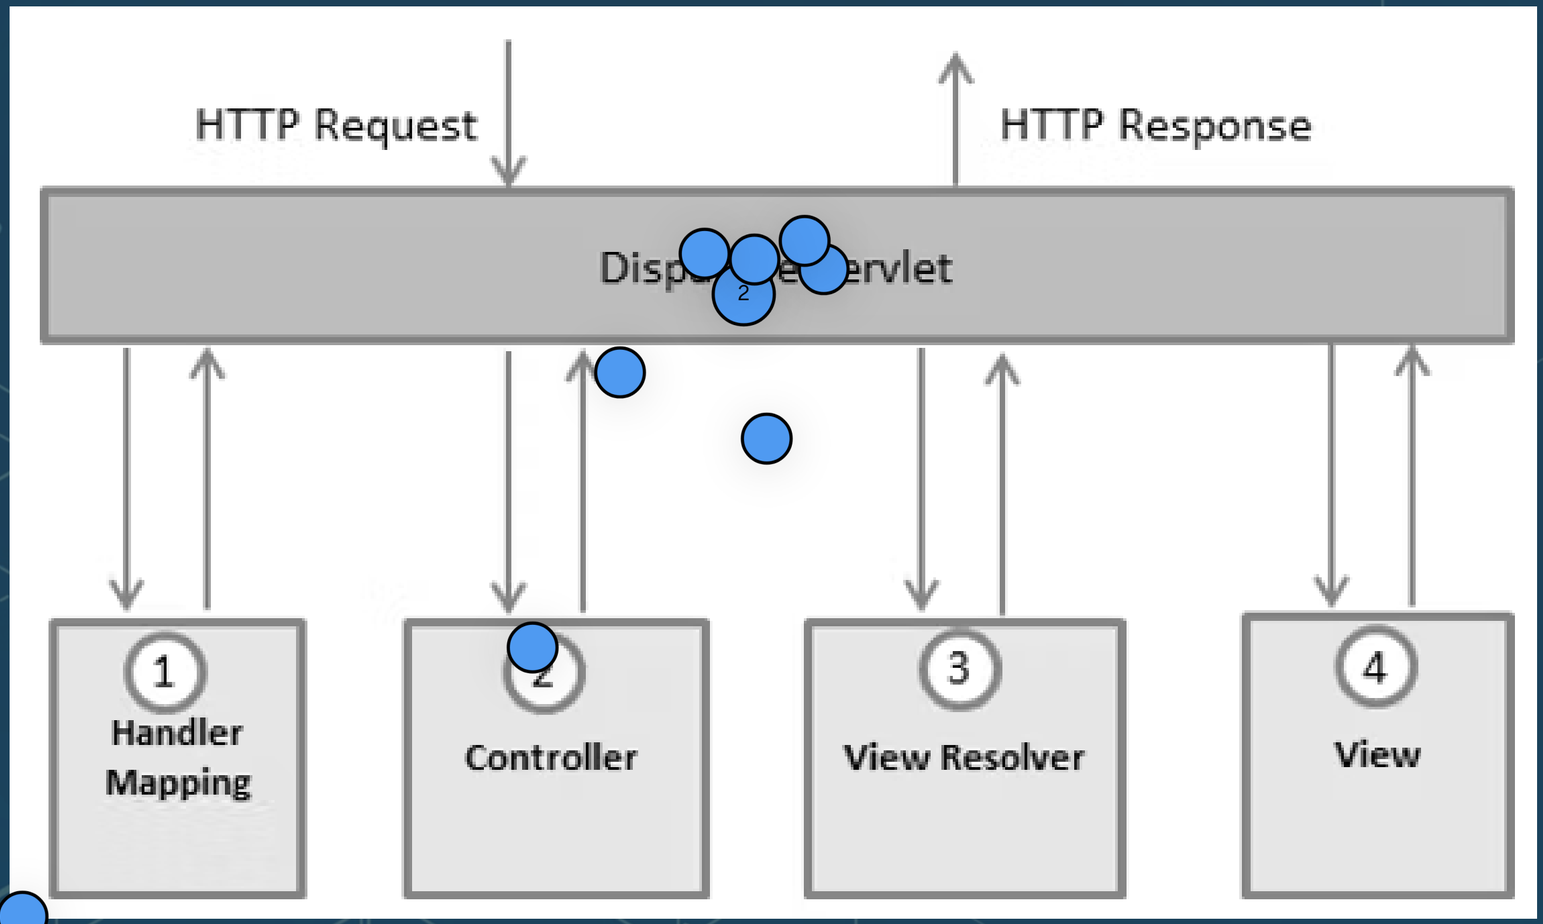

dispatcher filter

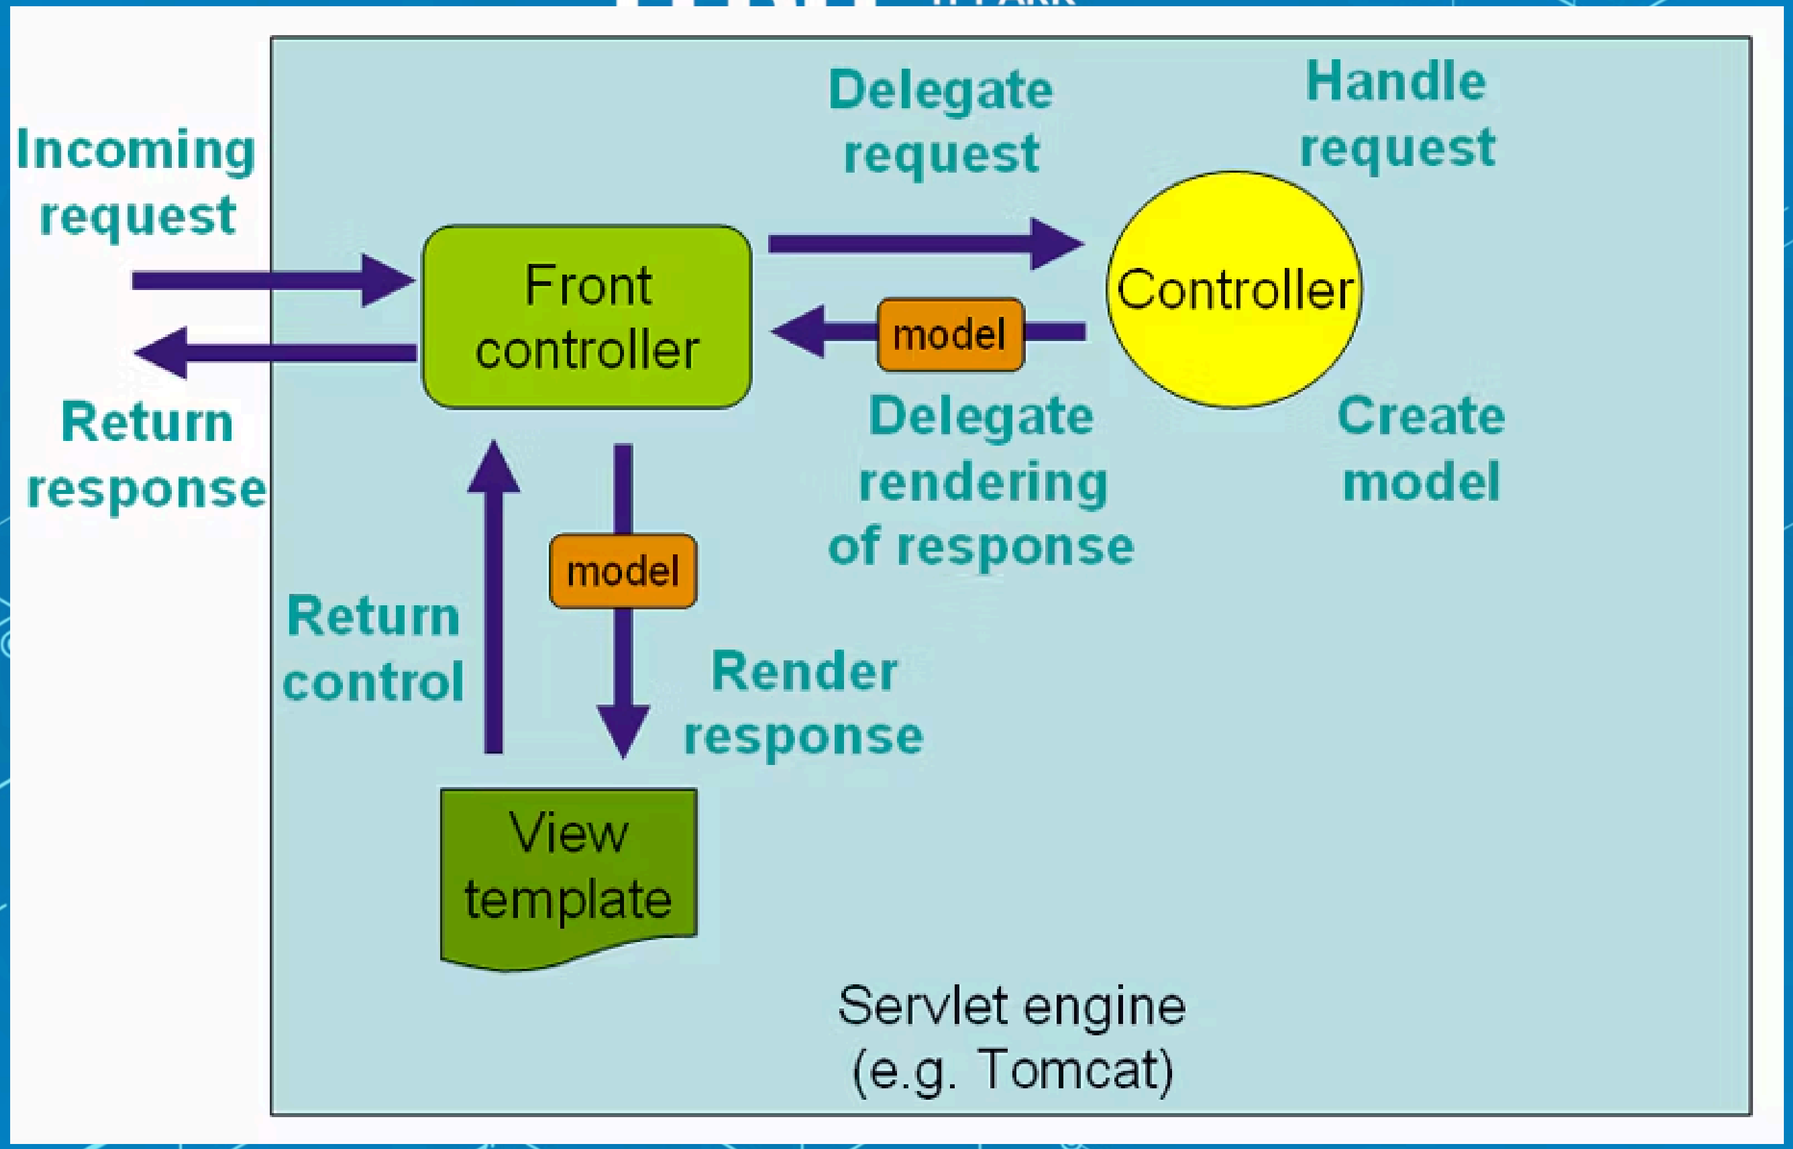

tomcat, spring-mvc, Bean, Controller, IoC, JPA...

IoC

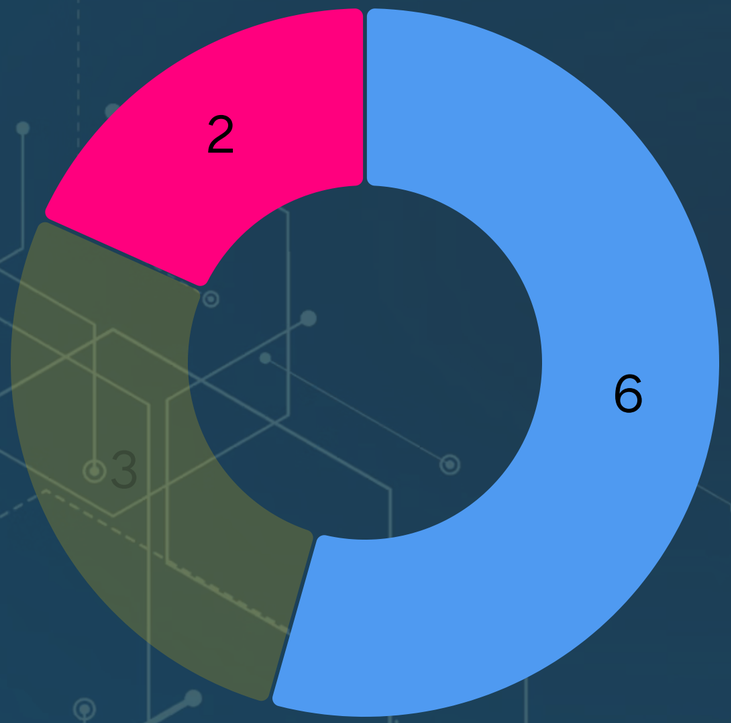

iTPU IT PARK UNIVERSITY

Pin on a component that acts as a FrontController

Incoming request
Return response
Front controller
Delegate request
Handle request
Controller
model
Delegate rendering of response
Create model
model
Return control
Render response
View template
Servlet engine (e.g. Tomcat)

What does "model" component represent?

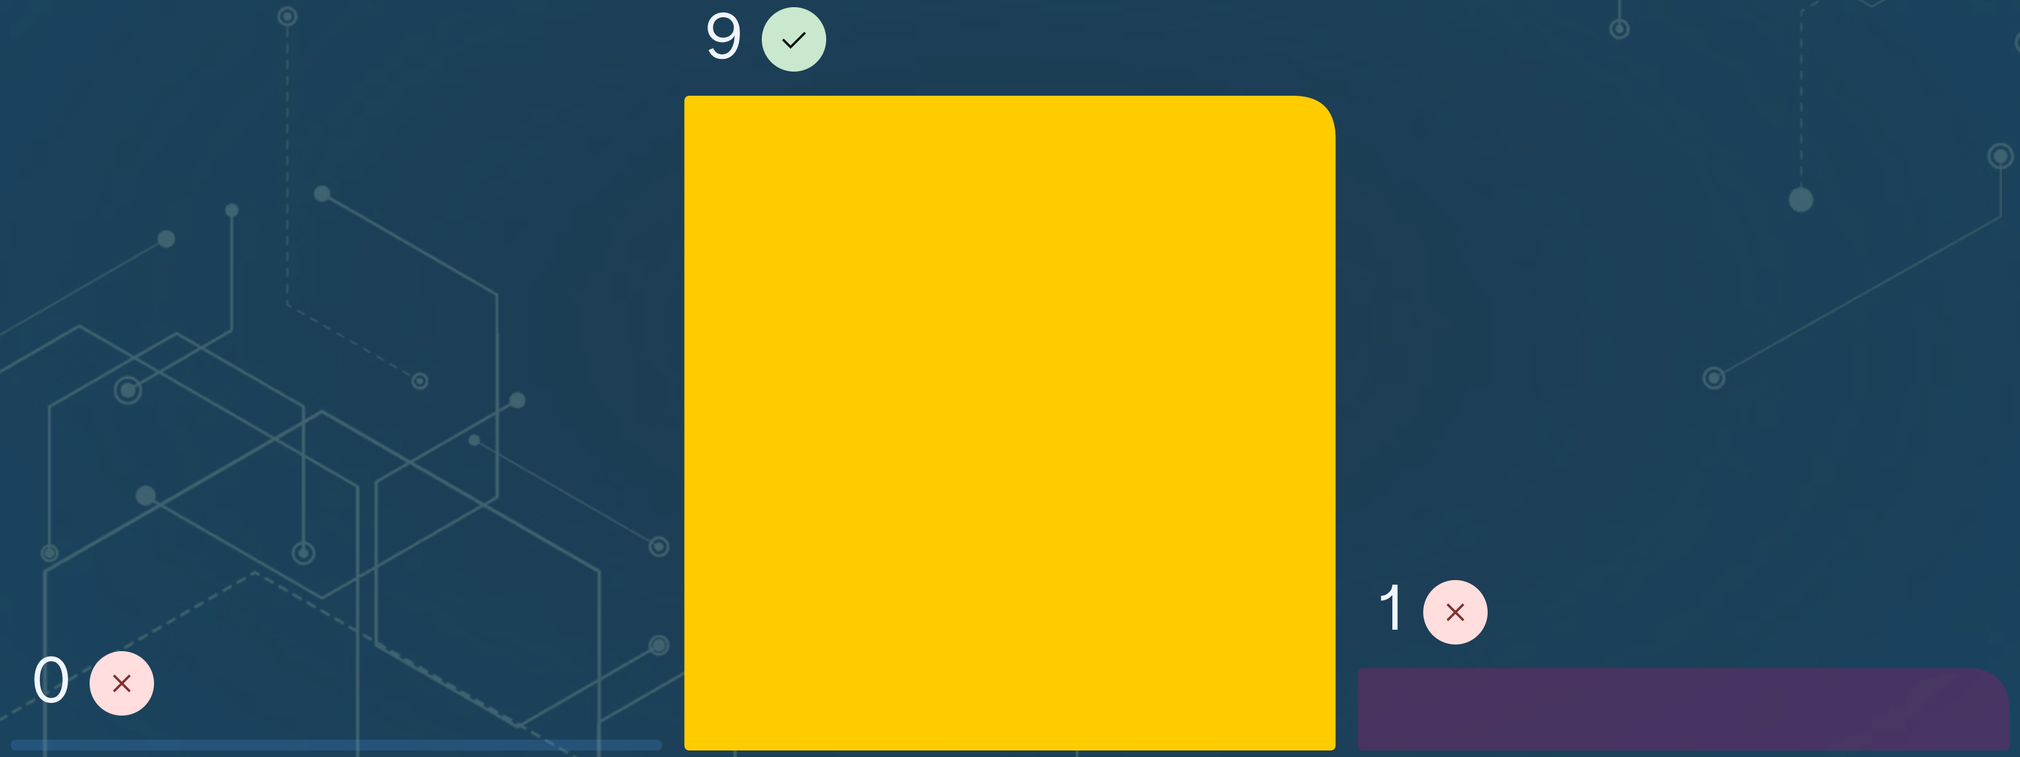

6	Application data	✓
3	Database structure	×
2	POJOs	✓
0	Application design	×

What does "view" component represent?

7	JSP	✓
0	viewModel	✗
0	Thymeleaf	✓
0	Database UML diagram	✗

What happens if we do not specify URL after @GetMapping?

Spring MVC (ws-19)

0

Do you have questions \ uncertainties \ concerns on materials? (If no - it means all clear for you)

No questions

should we implements dispatcher for the task?

no no

is it possible to run it on top of another protocol?

not yet
