

Instructions

How is it going ? Do you have problems with practical tasks ? Any concerns with learning materials ?

this is fine something
good
a little bit all fine

Today's agenda

- Total Recall
- HTTP calls with Java
- Quiz
- Code examples
- Questions

Total Recall

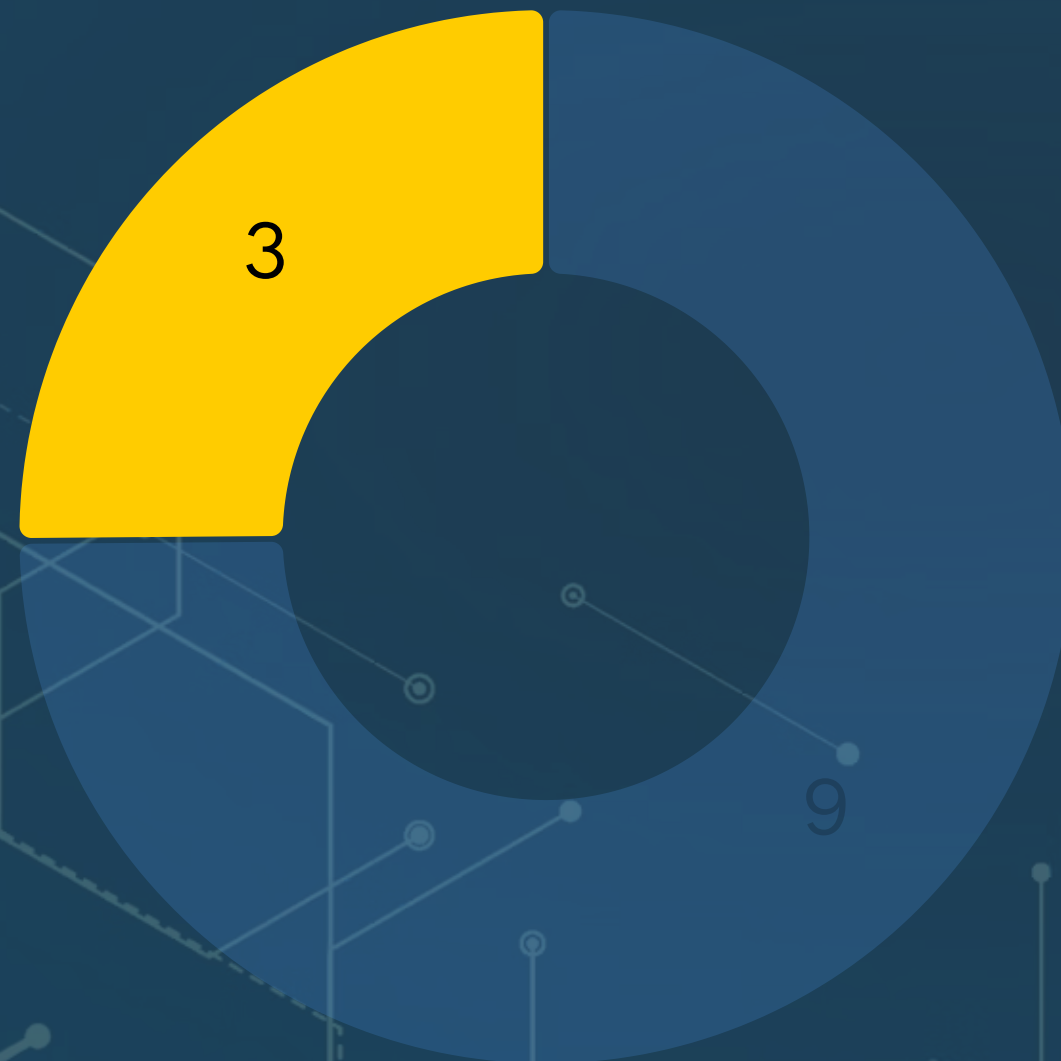

What do you remember from the previous workshop ?

hibernate

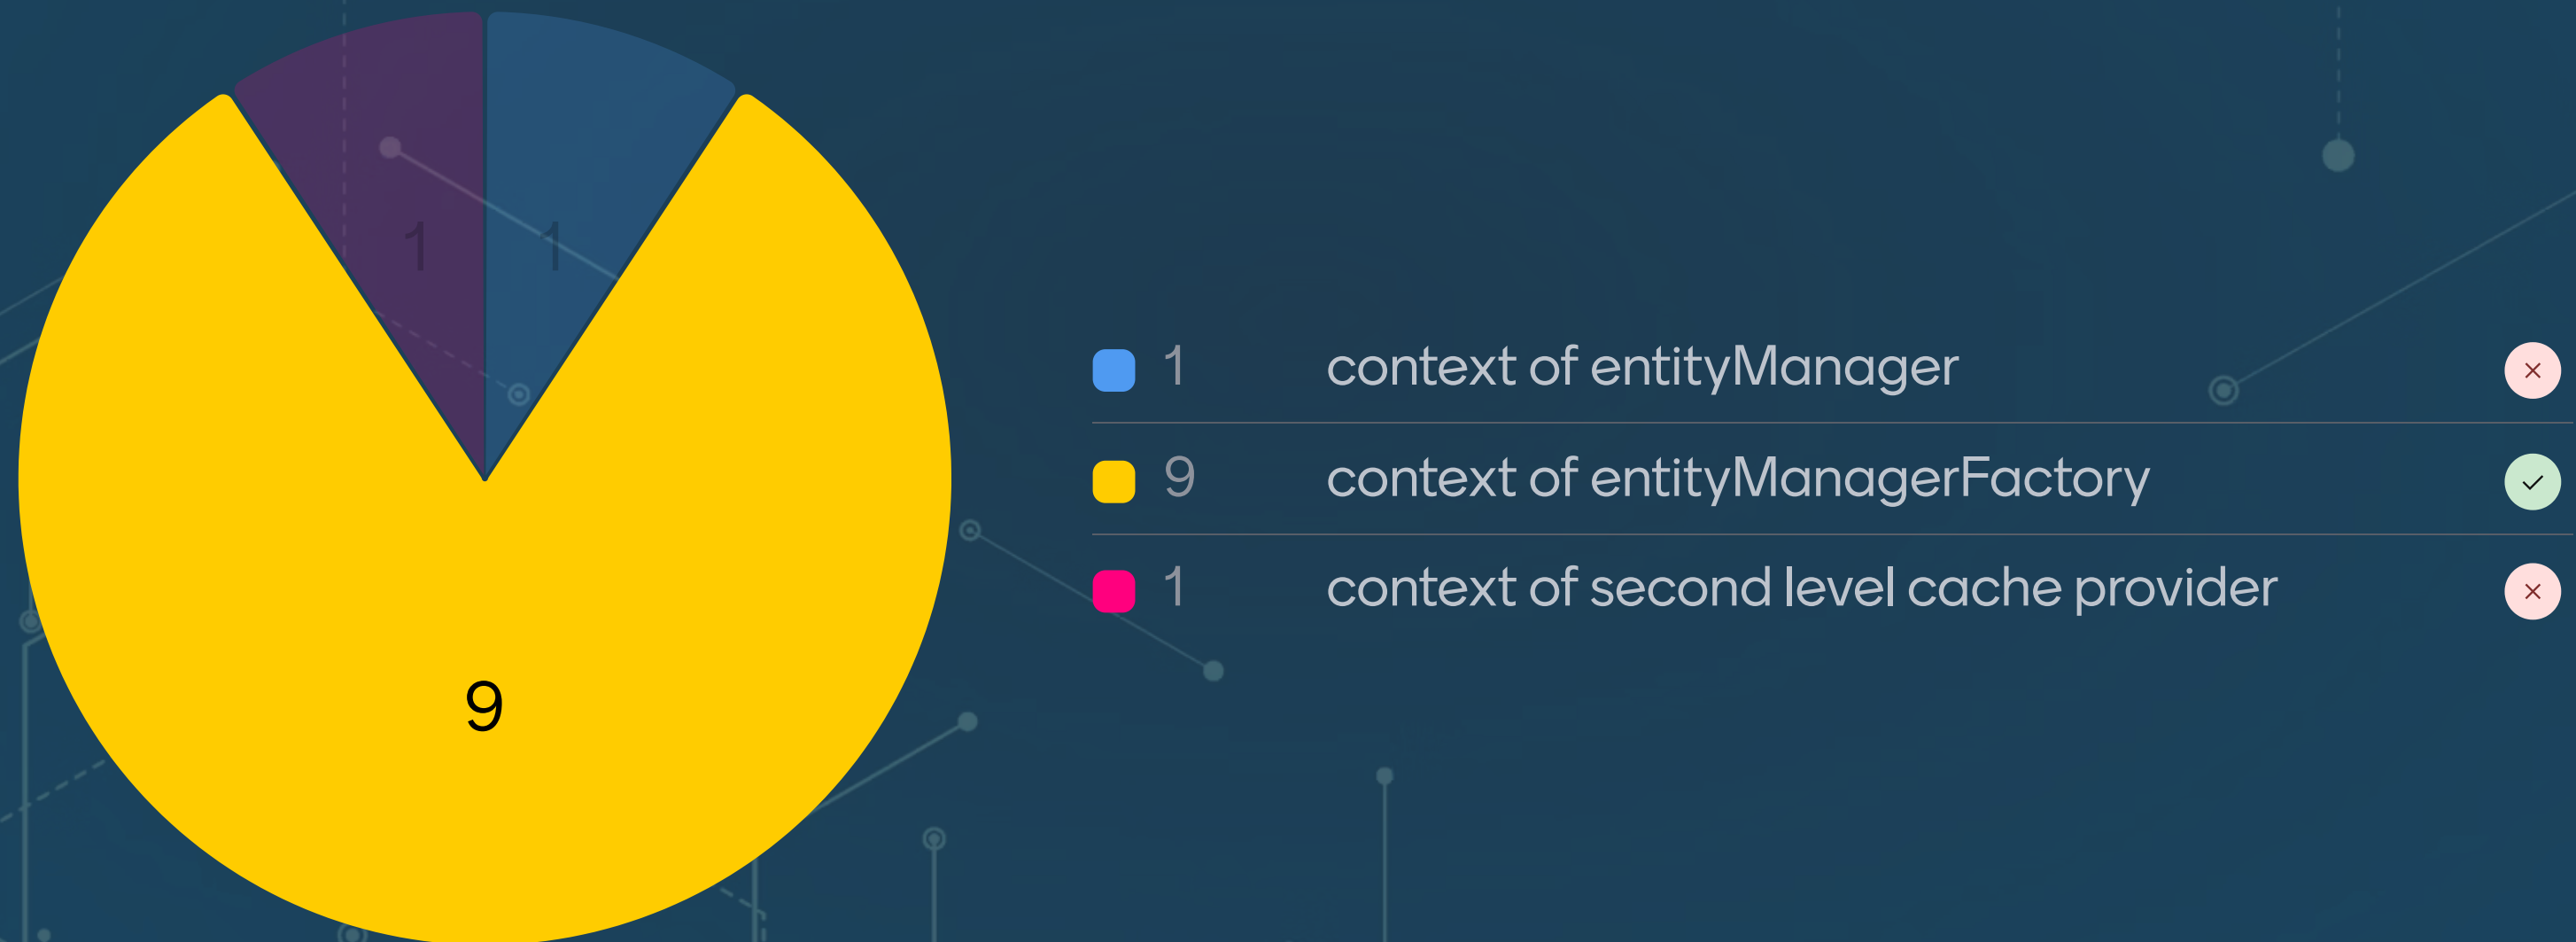

hibernate, cach lvl1/lvl2

How many caches are there in Hibernate?

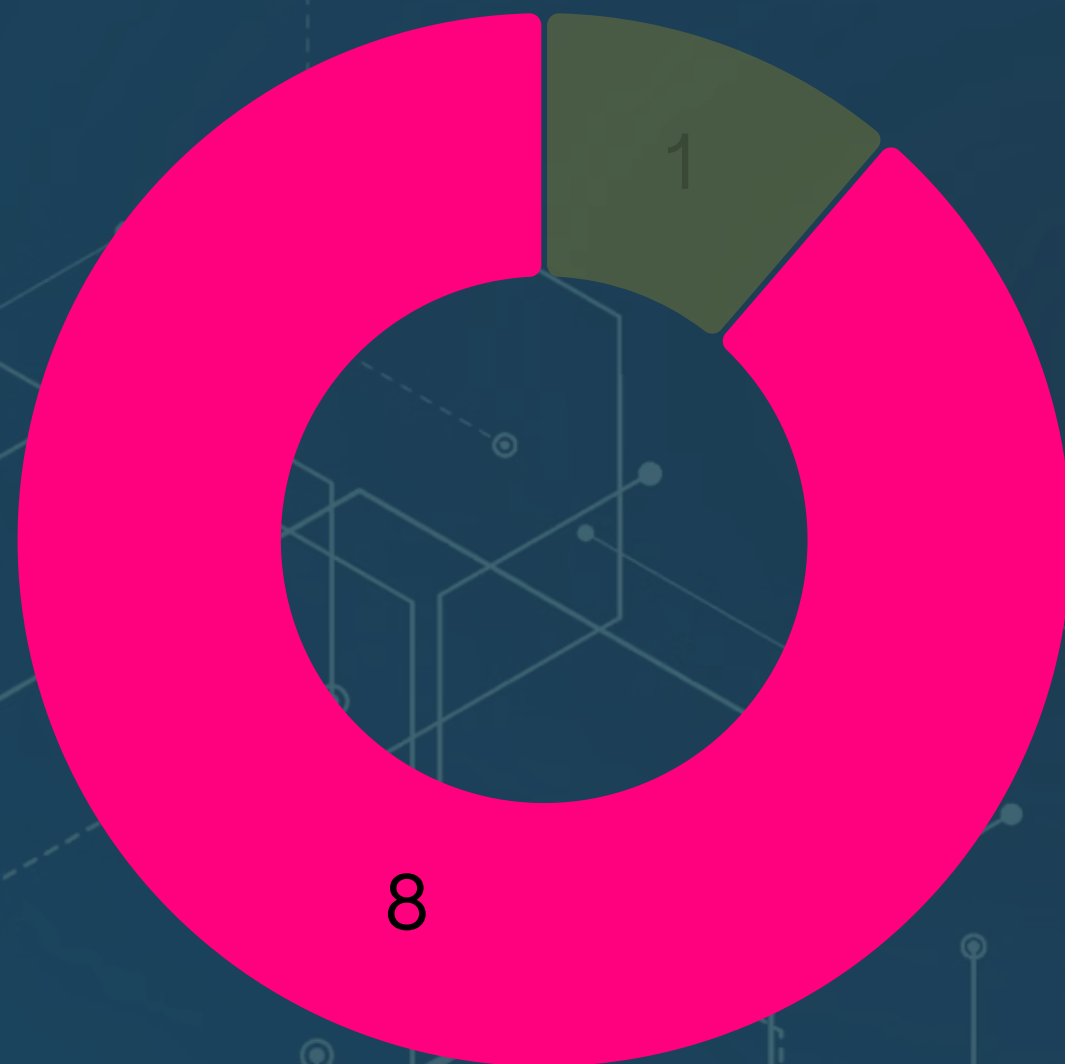

9	2	✗
3	3	✓
0	4	✗

Whom does second level cache belong to ?

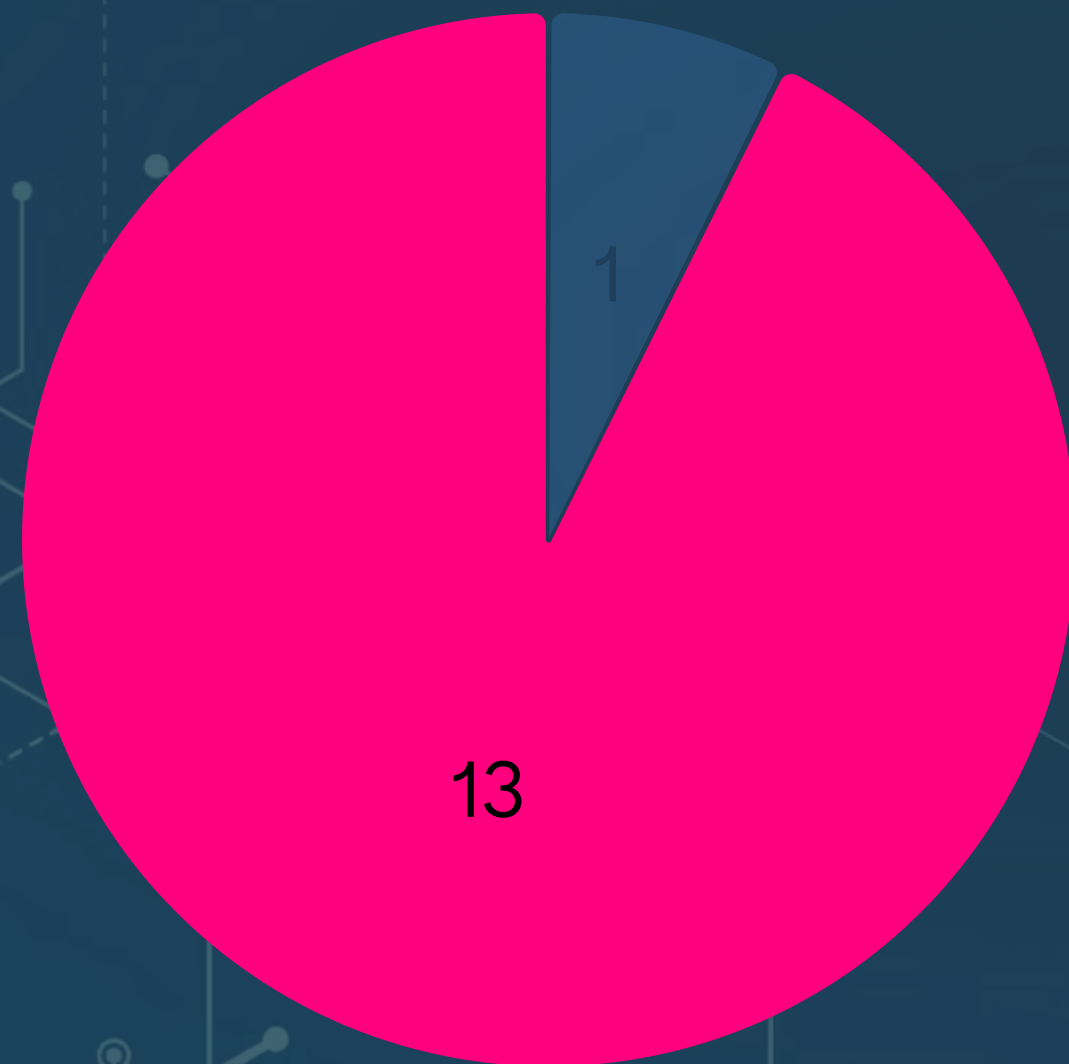

How to *enable* 2nd level cache ?

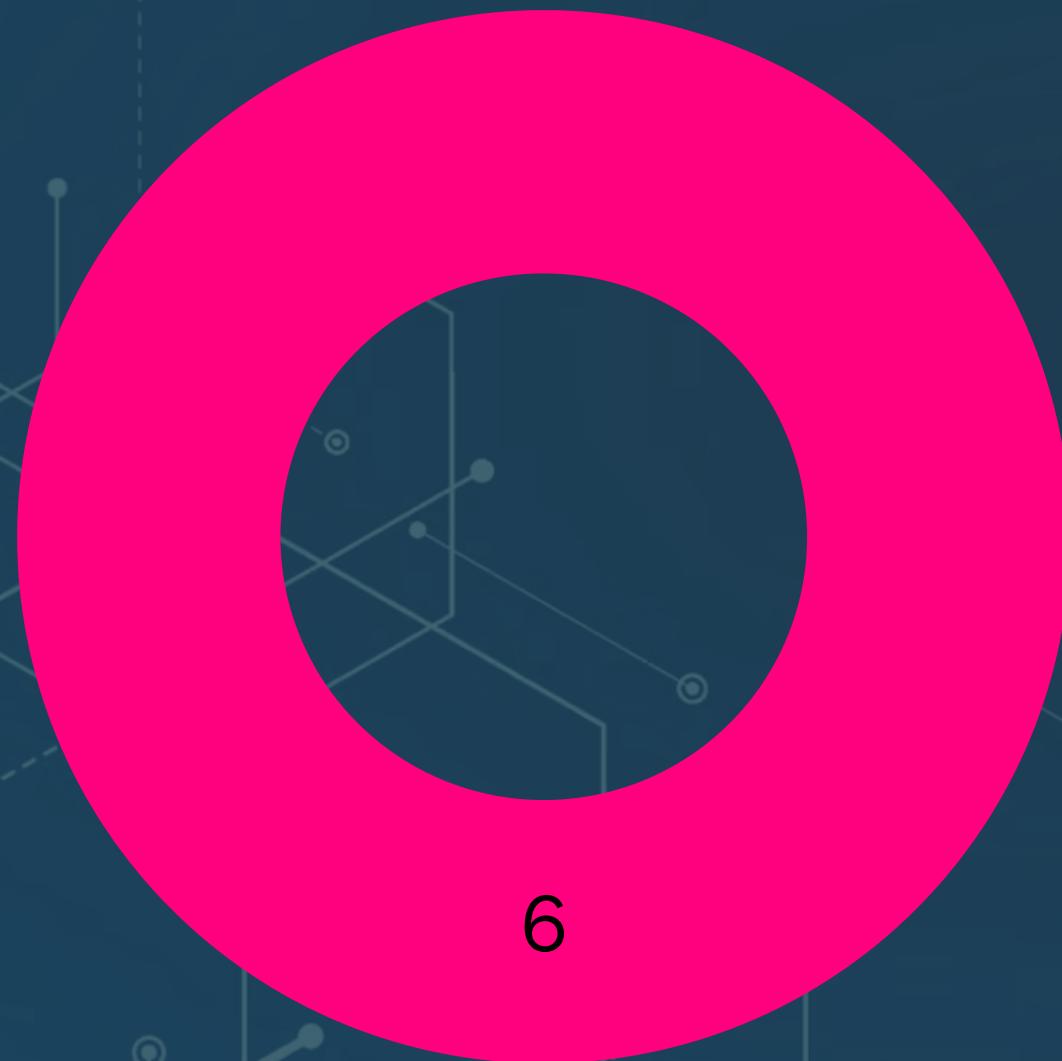

0	Just leverage proper annotations	✗
1	It's working all the time	✗
8	Enable it in config file	✓

How to enable 3rd level cache ?

1	Using annotations	✗
0	In config file	✗
13	There is no such	✓

Where can we put this line: `@Cache(usage=CacheConcurrencyStrategy.READ_WRITE)`

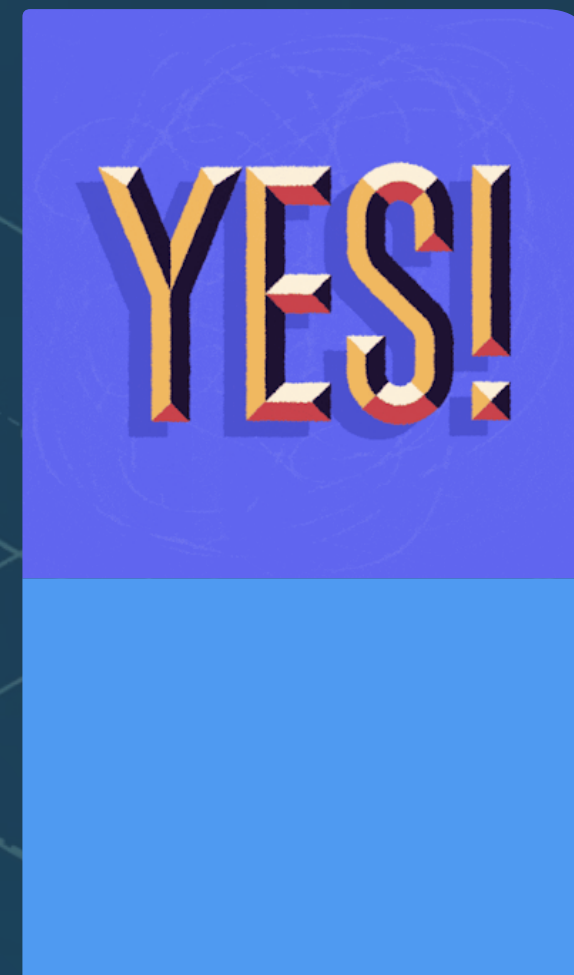

0	above constructor	✗
0	above method	✗
6	above class and field	✓

Quiz

What does HTTP stand for?

15 ✓

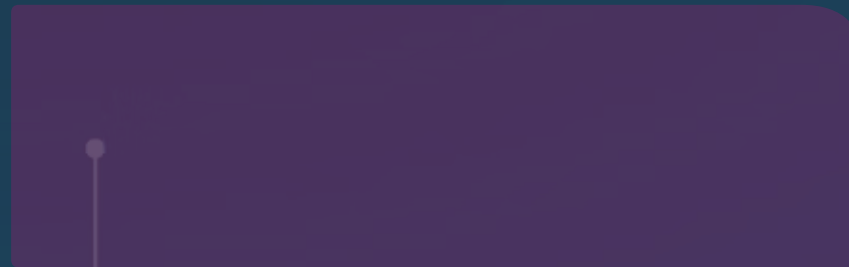

A) HyperText Transfer Protocol

1 ✗

B) HighText Transfer Protocol

4 ✗

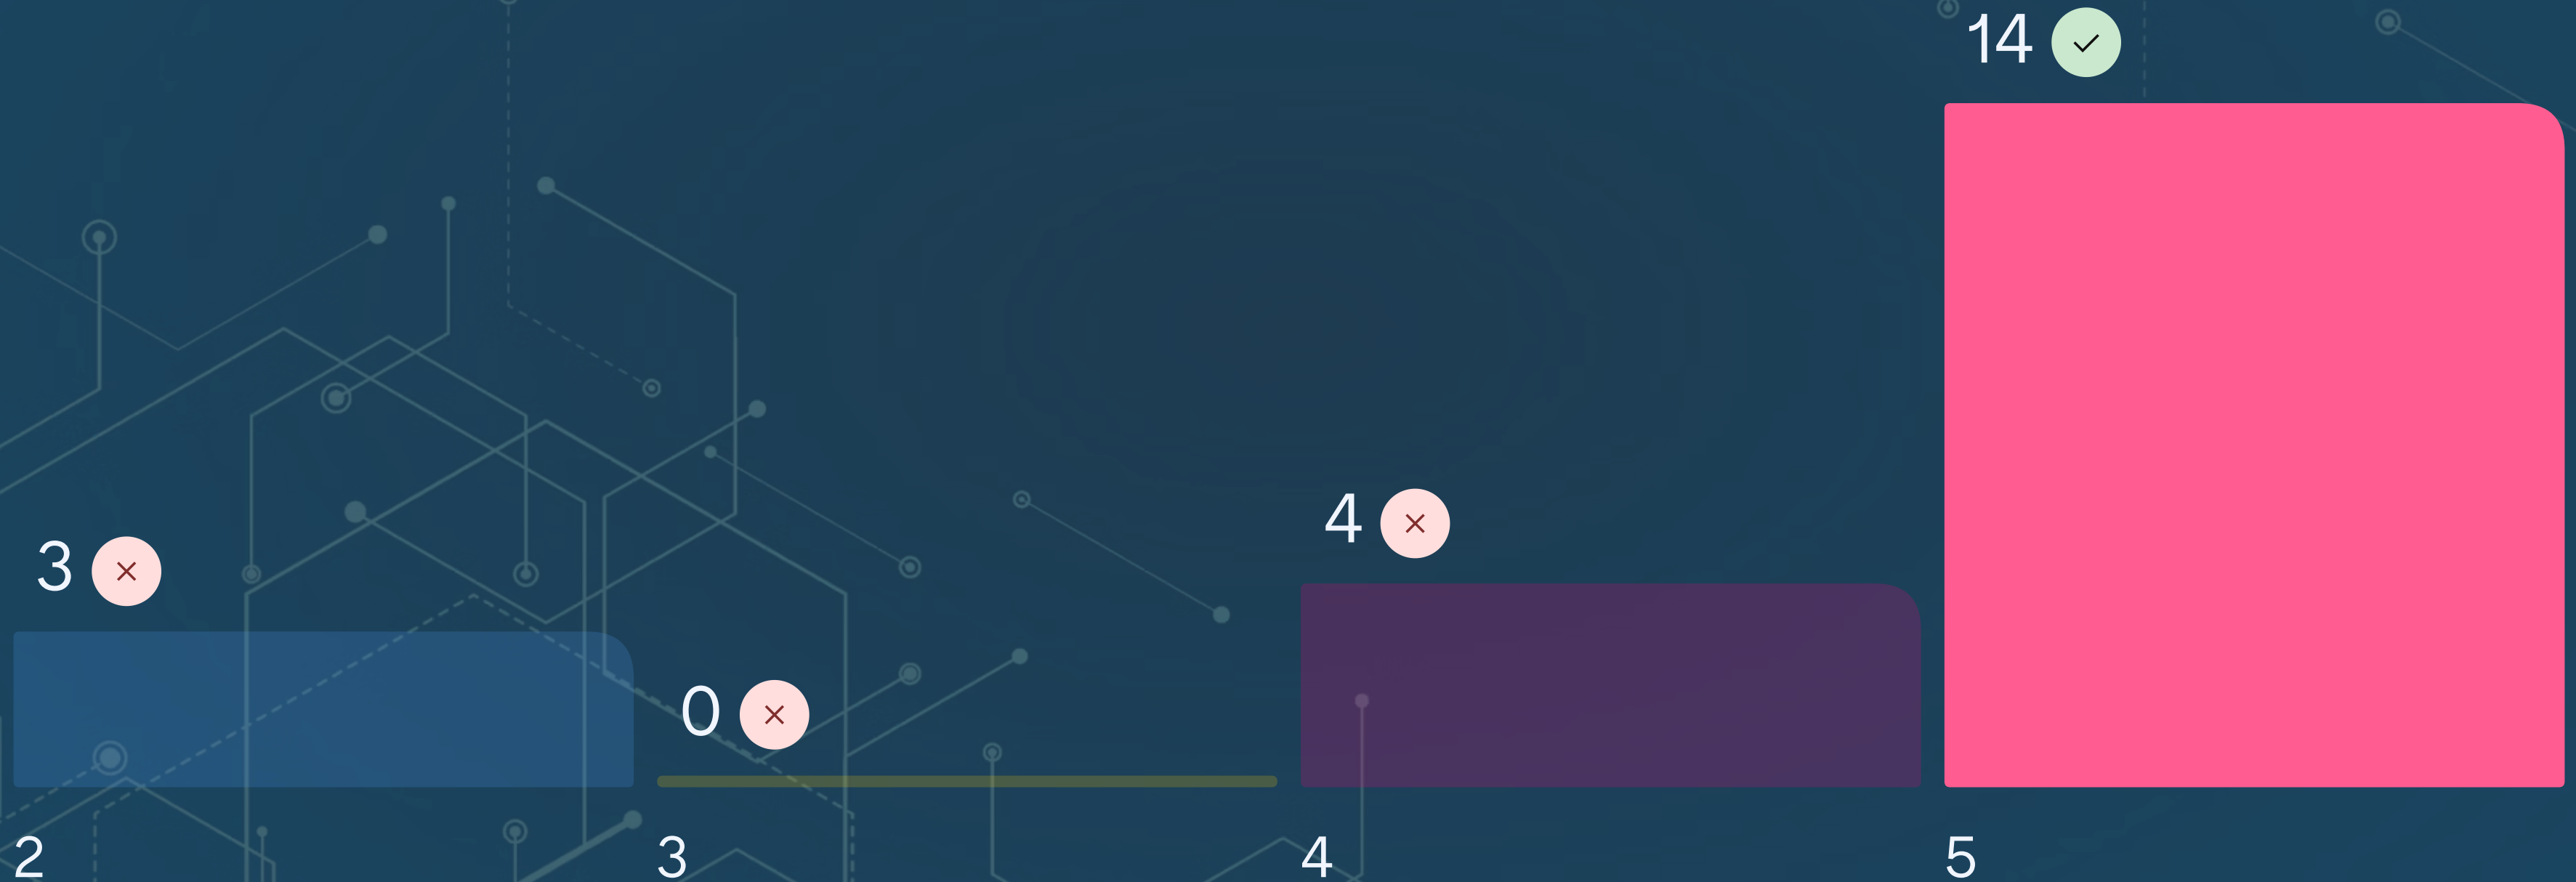

C) HyperText Transmission
Protocol

0 ✗

D) HyperText Transfer Process

How many versions in HTTP ?

ITPU IT PARK UNIVERSITY Http Versions

HTTP/0.9 - The first version, introduced in 1991.
Handling only basic GET requests.

HTTP/1.0: Considered obsolete, rarely used
today.

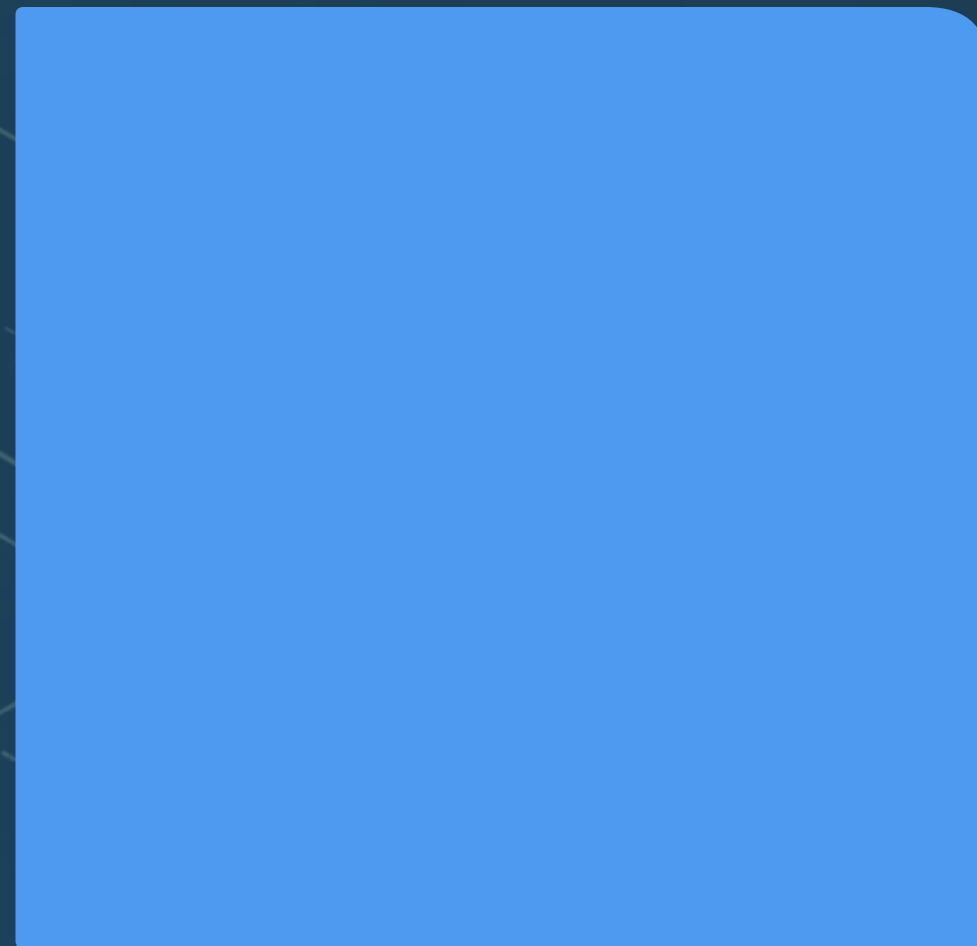

HTTP/1.1: The long-standing standard version, still
widely implemented.

HTTP/2: Introduced significant performance
improvements over HTTP/1.1.

HTTP/3: The newest version, utilizing QUIC
protocol for faster connection establishment.

HTTP/2 allows multiple requests and responses to be multiplexed over a single connection.

22 ✓

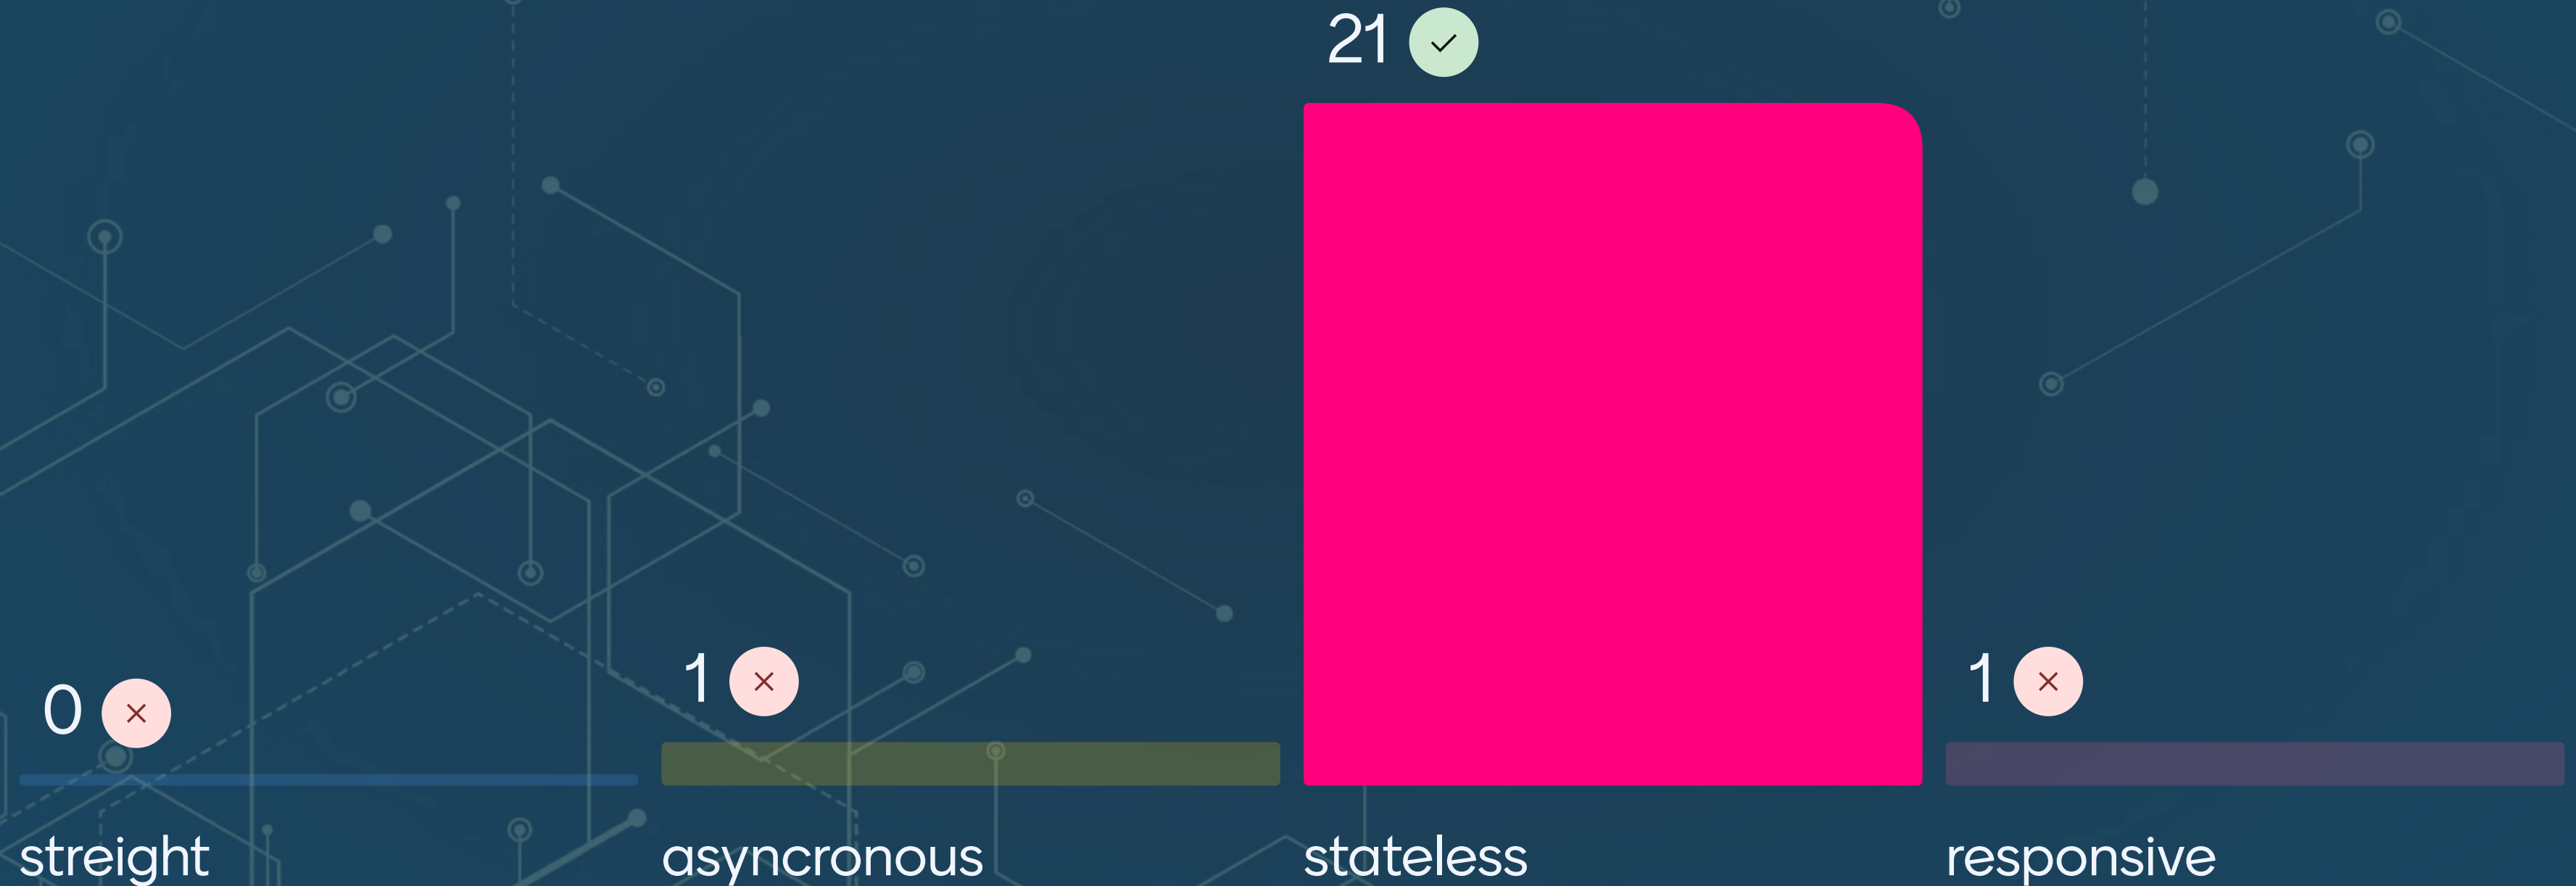

0 ✗

True

False

HTTP is a _____ protocol, meaning that the client makes a request and the server responds to that request without retaining any state information

Which of the following HTTP methods is used to request a representation of a specified resource?

25 ✓

0 ✗

A) POST

0 ✗

C) DELETE

0 ✗

D) PUT

B) GET

HTTPS is a completely different and unrelated protocol compared to HTTP.

23 ✓

1 ✗

True

0 ✗

idk

False

Which header in an HTTP response is used to determine the type of data being sent?

23 ✓

1 ✗

A) Server

1 ✗

B) Content-Length

0 ✗

D) User-Agent

C) Content-Type

Which part of an HTTP request indicates the desired action to be performed on a specified resource?

21 ✓

0 ✗

A) Request URI

1 ✗

C) Request header

1 ✗

D) Request body

B) Request method

Which of the following is NOT a standard HTTP method?

23 ✓

0 ✗

A) GET

0 ✗

B) POST

C) SEND

0 ✗

D) DELETE

Which part of an HTTP response contains the data that is being requested, such as HTML files, images, or other types of data?

25 ✓

0 ✗

A) Status Line

0 ✗

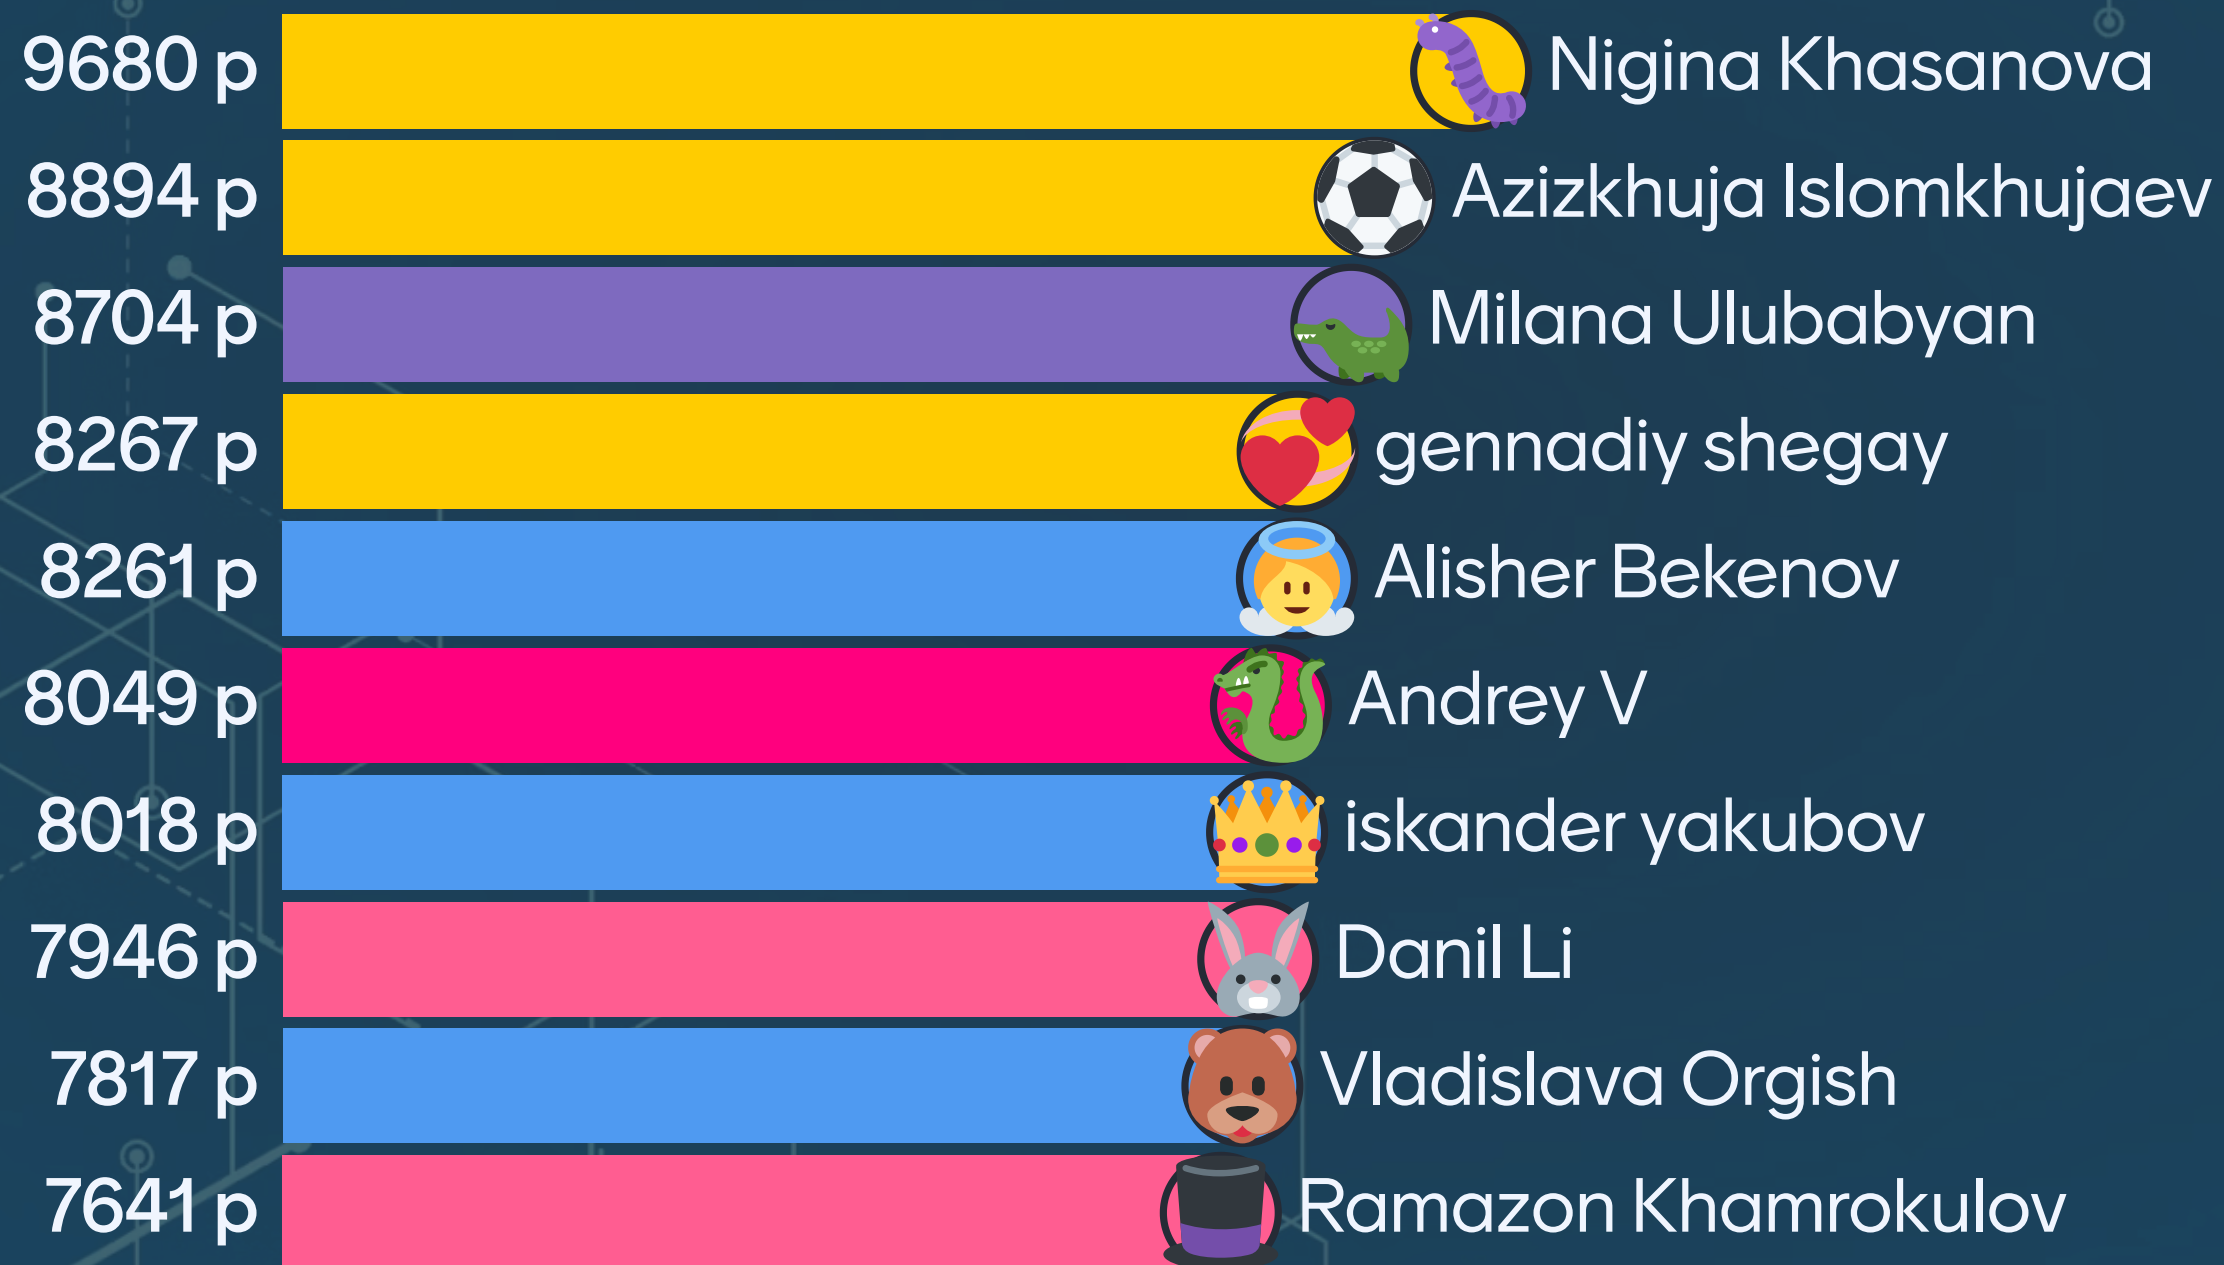

B) Response Header

C) Response Body

0 ✗

D) Cookie Header
